DRIVEN BY DETERMINATION. FUELED BY PASSION.

Determination paves the way for success. At Capri Global, this philosophy has seen us remain steadfast in our mission and approach our objectives with diligence and focus.

We are determined to grow our business, expand our offerings and create value for all our stakeholders. We will do so by remaining true to our purpose and by being passionate about the way we go about our work.

Our determination is reflected in the manner in which we are growing our retail finance portfolio and exploring newer vistas like affordable housing finance and asset management. Our passion is reflected in the manner in which we are growing our team, strengthening our network and investing our business with technology enabled processes.

We are determined to participate in the entrepreneurial resurgence of India. We are passionate about partnering the capital needs of businesses and helping them do better. With the determination to cater to more customers, we are innovating new products and deploying new distribution strategies.

We are committed to creating a meaningful future for our communities and towards this end are working with passion and perseverance.

The year 2015-16 was about putting our determination into action with passion. Going forward, we are confident to achieve our strategic objectives and emerge as a trusted partner for capital needs of our customers.

CHAIRMAN'S MESSAGE

Dear Shareholders

Seven years after the Global Financial Crisis of 2008-9, the world still remains unsettled as it moves through a sustained period of economic turbulence and uncertainty. It is in this context that we have to evaluate India's strong performance in 2015-16 and an even stronger outlook going forward. Favourable macroeconomic parameters, multiple government initiatives, and softer oil prices have helped propel India to be the world's fastest growing major economy.

THE STRATEGIC SHIFT TOWARDS MSME LENDING WILL ENSURE THAT WE ARE A PARTICIPANT IN THE ENTREPRENEURIAL RESURGENCE OF INDIA.

The financial services sector is a good indicator of the progress that India is making. Financial inclusion instruments, direct benefit transfers, and government-sponsored funding schemes for MSMEs are all leading to greater economic participation from a large number of people in the entrepreneurial landscape. And I believe this is where the opportunity for NBFCs in India will be found. These unique financial organizations, such as Capri Global, are expected to be major

participants in the retail finance industry, given our collective ability to be more flexible than traditional lenders and reach deeper into consumer and other markets. From a policy perspective, new RBI guidelines on NBFCs regarding capital requirements, provisioning norms, and enhanced disclosure requirements are all expected to benefit the sector over the long run, setting the stage for stronger, well-governed NBFCs to compete fairly in the marketplace.

The performance of Capri Global must be seen from this vantage point. We have certainly reported an encouraging performance in FY2015-16, yet there is always room for improvement. The MSME & Retail finance arm overtook Wholesale real estate lending and now comprises a substantial portion of our loan book. This was the result of a conscious effort and accurate reading of market trends by the Company's management. We have strategically downsized the exposure to the residential real estate sector given the current challenges, but will continue to be receptive to superior opportunities, as and when they present themselves.

Importantly, the strategic shift towards MSME lending will ensure that we are a participant in the entrepreneurial resurgence of India, for it is the entrepreneur that drives growth in economies across the world. To achieve this, we will continue to focus personnel and other resources towards this effort, making sure that our associates have the requisite credit, marketing, operations and administrative skills to be successful. In addition, we seek to ensure that our organization's diversity reflects the markets we are serving. A diverse organization is necessarily a stronger one. We will further sharpen our focus on technology, investing in processes and systems that will make scaling-up relatively risk-neutral. In short, although a medium-sized organisation, we, ourselves, must maintain a nimbleness and entrepreneurial spirit. This thinking must apply to all levels in the organisation, starting from the Board to the Executive Management and expanding to the field force.

I am pleased to report that the strategic alliance between Capri Investment Group (CIG), USA and the Company, which brought about my chairmanship, has begun delivering on its objectives. During FY2015-16, we took a major step forward to strengthen this strategic alliance by receiving RBI approval to establish an asset gathering, off-shore, wholly-owned subsidiary. Recent statutory changes may allow us to base the Asset Management Company (AMC) in India with favourable

tax and regulatory implications for our third-party investors. From the start, we have aimed to infuse best practices, robust governance, and combine the research efforts of CIG and the Company. The pending establishment of the AMC with the goal of collectively raising capital from third-party investors – an area in which CIG specializes – will allow us to realize the spirit of joint venture upon which our alliance was formed.

As we move into the future, our primary focus will be on growth and expansion. We will broaden our product offerings geographically by extending our areas of operations. And at the same time, we will foray into new business lines, such as affordable housing finance and third-party asset management. But we also expect to expand our balance sheet by further developing our banking relationships and prudently increasing their capital exposure to us.

While MSME and residential real estate lending represent the bedrock of our ongoing business, our recent initiatives in affordable housing finance and AMC will help us further strengthen and diversify our portfolio, and, in the process, make our income streams more resilient. Certainly, the broader real estate market is currently facing challenges, but it may be the perfect time to counter-cyclically pursue select, high-return opportunities in the sector. All of these types of opportunities, properly executed, should enable the Company to profitably and responsibly provide attractive returns over the long term for our shareholders.

Lastly, at Capri Global, we are working to create value not just for our shareholders, but also for the communities in which we operate and the society at large. We are conscious of our responsibility as a corporate citizen and seek to play our part in making lives better. Our social responsibility initiatives are driven through the Capri Foundation, which runs various programmes in our operating areas. Beyond this, our lending activity itself provides opportunities for the society's underserved and marginalized sections.

I would like to thank our shareholders for their immense support as we steadily and consistently develop your Company into one of the leading financial organizations in India. As India continues to take its place as perhaps the most dynamic economy in the world, we will endeavour to grow in tandem with this great country for the benefit of all the varied and important stakeholders of Capri Global.

Yours truly,

Quintin E. Primo III
Non-executive Chairman

I AM HAPPY THAT THE STRATEGIC ALLIANCE BETWEEN CAPRI INVESTMENT GROUP (CIG), USA AND THE COMPANY HAS STARTED DELIVERING ON ITS OBJECTIVES.

EXECUTIVE DIRECTORS' MESSAGE

Dear Shareholders

I take great pleasure in writing to you after the end of a satisfactory year. Amid external challenges, we reported a reasonably strong performance during the year. We managed to keep our non-performing assets under check and continued to maintain a strong balance sheet. During 2015-16, our business demonstrated its resilience and long-term potential. It was also the year when we delivered on our strategic agenda of growing the retail lending business, while being cautious and calibrated on the wholesale lending side.

LOAN BOOK

₹1,11,058 lacs
from ₹ 95,168 lacs in 2014-15

16.67% 

CAPITAL ADEQUACY RATIO

79.72%

Our loan book grew by 16.67 percent to Rs. 1,11,058 lacs (from Rs. 95,168 lacs in 2014-15) during the year. Remarkably, retail lending grew by over 70 percent and now comprises nearly 2/3rd of our total loan book. To us this represents our ability to identify opportunities and respond with agility.

The strength of our balance sheet and low gearing gave us the courage to write-off an amount of Rs. 6,593.77 lacs (net of adjustments) during the year, which was the result of stress in the real-estate sector. Our total income was marginally

lower at Rs. 18,655 lacs (from Rs. 19,216 lacs in 2014-15) largely due to the write-offs and reversals of income thereon during the year. Consequently, our Profit after tax fell by nearly half to Rs. 4120.49 lacs during the year. We were able to maintain a strong Capital Adequacy Ratio of 79.72% reflecting the immense headroom for growth that we enjoy.

We believe that the vibrant MSME sector in India requires easy access to capital to fuel its growth, and that we can be a partner in this journey. While traditional

banking channels have increased their small lending focus, NBFCs such as Capri Global are better suited to serve emerging entrepreneurs. This is due to their flexibility, quicker decision making and differentiated credit-assessment processes that determine ability and prospects as opposed to a templated evaluation of credit-worthiness.

At Capri Global, we have built our retail lending franchise on the foundation of empathy and customer-centricity. We understand the needs and requirements of entrepreneurs and are ever-willing to be flexible and accommodative in ensuring that their business does not suffer due to lack of funds. We are extending our understanding from our core markets and coverage areas, to other parts of the country, in order to have a broad-based customer profile, wider geographic reach and derisked approach. We are consistently strengthening our grip in the Indian market through expanding our footprints and have opened 14 new branches during the year, taking the branch tally to 23 across India.

We recognize that building a high-performance culture of motivated, passionate people is an imperative to scale up our operations. Therefore, we have focused on lateral hiring, strengthening our training process, and equip the team with best of the technology tools and empowerment. Our growth and expansion is led by a team of customer interfacing professionals and gradually we are reducing our reliance on direct sales agent for sourcing business.

We have adopted a cautious approach towards Wholesale lending business in order to protect our balance sheet. We are selective in lending only to reputed builders in multi-family residential projects after stringent credit risk assessment. We are taking proactive steps to write off amounts, rather than carrying them in the balance sheet as NPA, while we have stepped up our efforts to ensure recovery of these amounts. As the real-estate situation improves, we will be able to take strategic calls in this segment,

and maintain a healthy book without compromising on returns.

I am also delighted to report that we have received the registration from National Housing Bank (NHB), for our Housing Finance subsidiary company (HFC). The affordable housing segment in India is attractive, and we are confident of leveraging our expertise and customer profile to be able to make a mark in this space. Together with this, we have also received RBI approval to incorporate a subsidiary company in Singapore, which will be focusing on the Asset Management business with India focus. All these initiatives would ensure multiple revenue streams for a sustainable growth and high risk adjusted return to stakeholders going forward.

Our growth will be directly driven by the capital-raising headroom our balance-sheet offers. An improved credit rating and existing lines, largely unutilized, from banks will enable us to grow multi-fold over the next few years. Improvement in our credit rating from A to A+ would ensure easy access to capital at reasonable cost to fuel our growth plans.

Capri Global is well aligned to the India growth story. Various government initiatives for small and micro entrepreneurs and financial inclusion measures drive towards affordable housing are leading to multiple opportunities in the financial services space. At the same time, regulatory initiatives are also helping strengthen the sector, together with providing a level-playing field for quality participants. All these factors are certainly going to provide the tailwind for our rapid growth.

We are helping build the India of tomorrow, not just through our business initiatives, but also through our social responsibility focus. Our interventions across the areas of Health, Education, Skill development and Livelihood are helping make a difference to the lives of our communities. We intend to scale-up and deepen these initiatives going forward.

We have positioned Capri Global attractively, and have put in place multiple initiatives during the year to implement the long term strategic intent. We are driven by our determination, and focused on our goal of value creation for the stakeholders. We are confident that our passion for excellence would help us fulfill expectations and take us to the next level, going forward.

I am deeply appreciative of the guidance and support received from our Board of Directors during the year. My gratitude also to our partners, bankers and other stakeholders who have supported our journey. And my congratulations to the hardworking team of go-getters that comprises Capri Global as they march towards our next level of growth.

Sincerely,

Sunil Kapoor
Executive Director

WE HAVE POSITIONED CAPRI GLOBAL ATTRACTIVELY, AND HAVE PUT IN PLACE MULTIPLE INITIATIVES DURING THE YEAR TO IMPLEMENT THE LONG TERM STRATEGIC INTENT. WE ARE DRIVEN BY OUR DETERMINATION, AND FOCUSED ON OUR GOAL OF VALUE CREATION FOR THE STAKEHOLDERS. WE ARE CONFIDENT THAT OUR PASSION FOR EXCELLENCE WOULD HELP US FULFILL EXPECTATIONS AND TAKE US TO THE NEXT LEVEL, GOING FORWARD.

BUSINESS APPROACH

**ATTRACTIVE
OPPORTUNITIES.
ROBUST
STRATEGY.**

India is an inherently entrepreneurial society. With the Government's recent initiatives designed to further fuel enterprise, more and more people are taking the plunge to start their own businesses. The Make in India and Start-up India campaigns have further motivated people to become entrepreneurs.

In addition, there are millions of small businesses in India that require capital to realise their true potential. These factors, in turn, have accelerated the demand for small-ticket loans from NBFCs.

We at CGCL, are committed to reach a wider spectrum of emerging entrepreneurs to participate in the entrepreneurial resurgence of the country. We are taking strategic steps to attain success in the long term.

Changing Product Mix

During the year, we strategically shifted our focus to MSME and retail business, recognising the potential opportunities of these sectors. With our existent large market presence in key sectors, and present diversifications, we are now prepared to address a larger MSME base. During the year, the real estate sector witnessed a challenging environment amid policy uncertainties and delay in project approval cycle. This hampered the demand-supply scenario. Therefore, we followed a careful approach towards the real estate sector under wholesale lending.

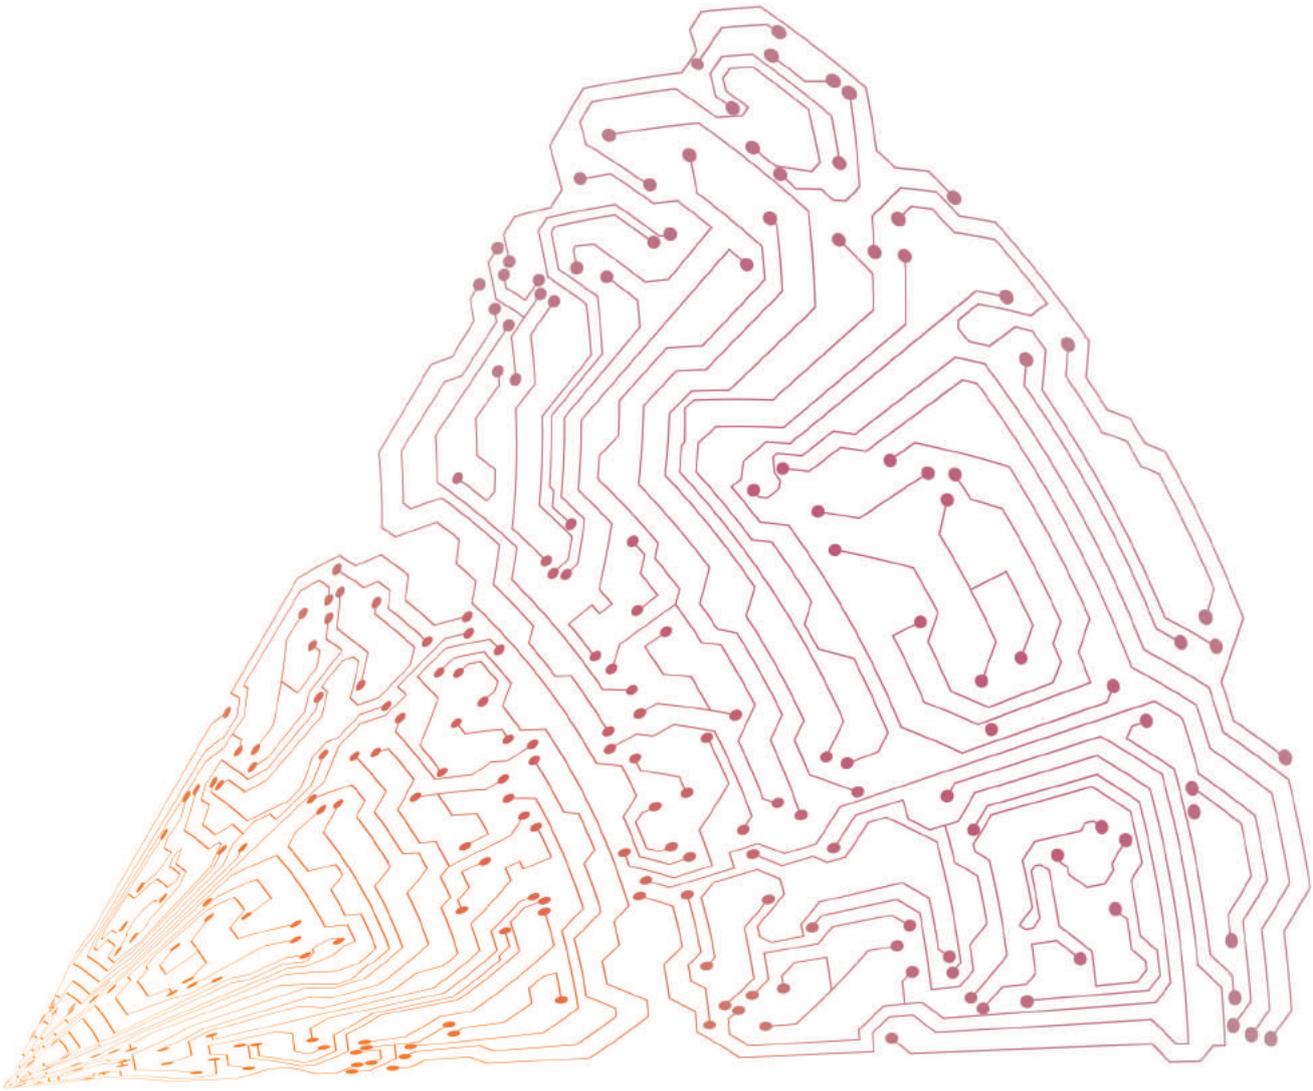

Infusing Customer Centricity

As a customer-focused entity, we focus on understanding client requirements and addressing them through innovative solutions. During the year, we concentrated on reducing the DSA sales channel and built our own sales force, thereby strengthening direct business. The strong sales team regularly visit customers in our focused markets.

We are emphasizing on customer engagement by going closer to people, listening to their requirements and trying to improve our products and services, based on their insights. Our sensitivity to local cultures and aspirations has enabled us to gain the confidence of customers.

Increasing Footprints

We are foraying into new geographies and at the same time, penetrating deeper into existing locations. From a single centre entity, today, we have become a company with over 23 branches across India. Through expanding our footprints, we are consistently solidifying our grip in the Indian market. Going forward, we are planning to spread our network in the states of Maharashtra (Nagpur, Nashik), Gujarat (Baroda, Gandhidham, Jamnagar, Bharuch, Mehsana), Madhya Pradesh (Bhopal, Indore), Punjab (Jalandhar, Ambala), Tamil Nadu and entire NCR zone.

BUSINESS ENABLERS

STRONG TECHNOLOGY. PROFICIENT RISK MANAGEMENT.

Over the years, we have been able to position ourselves as a preferred financial services provider to customers through our due diligence, efficient processing and speedy disbursements. Our strong technological back-up and efficient risk-management framework has enabled us strengthen our reputation.

Robust IT framework

Our information technology facilitates faster and informed decision making. Information and technology framework has been integrated to all our various operations. We regularly invest in upgrading our infrastructure processes to ensure speed and accuracy in our functions.

Technology has gained more prominence with increasing volumes, processes and expansion of branch network. It has become a prerequisite to streamline operations. The technology infrastructure is regularly reviewed to ensure alignment with changing business model and technology landscapes.

Efficient risk management system

As an NBFC, we are predominantly exposed to typical risks which are common to financial sector. Our efficient risk management system enables us to thrive in a competitive environment. We follow an effective risk management model that supplements our business growth. Our risk management process begins with a well-documented policy, which is implemented by our team of experienced industry professionals.

We have institutionalised Risk management and the practices are reviewed and guided by the apex Risk Management Committee of the Board members. SOP are laid down for all the critical operations.

Ingenious credit rating tool for project and credit appraisal are developed

for business verticals by experienced professionals to ensure selection of credible borrowers.

We have a capable team to handle recoveries and manage delinquencies reinforced by well-laid-out systems and procedures. Our recoveries philosophy is driven by core principles of integrity, transparency and respect for our customers. Extensive personal discussions with customers are conducted to assess their overall financial health and sustainability of their income.

We have a strong system to analyse data related to customers, supported by quality underwriting. As on March 31, 2016, our Gross NPAs were at 0.88% and Net NPAs at 0.75%.

Going forward, we will focus on the following areas:

- ▣ Strengthen data security functions
- ▣ Install analytical tools with various functions
- ▣ Present a new technology platform to improve customer services & acquisition and reduce the turnaround time with minimal transfer of physical documents
- ▣ Advancement to a scalable and flexible technology landscape
- ▣ Installation of fraud detection & prevention solutions

**EMPOWERED
TEAM.**

**FIRM GOVERNANCE
FRAMEWORK.**

A dynamic and dependable team is the biggest asset for an organisation. We encourage a right work culture, supported by ethical work practices to facilitate good business. At the same time, we follow value creation approach. It originates from our belief that a comprehensive governance system, based on relationship and trust, is crucial to creating consistent stakeholder value.

Empowered team

The success of our business and contentment of our customers is largely dependent on our team performance. We work responsibly towards building an engaging team of performers. The proficiency and leadership capabilities of our team members are important for our long-term success. We made significant efforts in the areas of talent acquisition, employee development, leadership enhancement and performance management. During the year, our people strength increased from 216 to 380.

Amit Setia

Associate Vice
President
Sales - MSME & Retail
Lending

“At CGCL, there is always a sense of security as it treats its employees like a family. HR understands well that there should be a work-life balance and therefore they leave no stone unturned to treat the employees in the best possible manner. At CGCL, performance is not limited to the quantitative numbers but encompasses the qualitative assessment of humane aspects, integrity, behavior and loyalty. At our work we have challenges, responsibilities and a lot of fun activities to do but I will say one thing that if you can dream, the organisation provides the resources to turn your dream into a reality.”

Comprehensive governance system

We are committed towards following the highest standards of governance and believe in implementing best practices for maintaining corporate discipline. Our leadership team, comprising an able mix of professionals with extensive experience and domain expertise, provides strategic direction to steer our continued growth. During the year, our credit rating moved to A+, one notch away from attaining an AA rating (premium rating held by big companies in the NBFC space).

Priyanka R. Hogle

Executive - Central
Operations,
MSME & Retail Lending

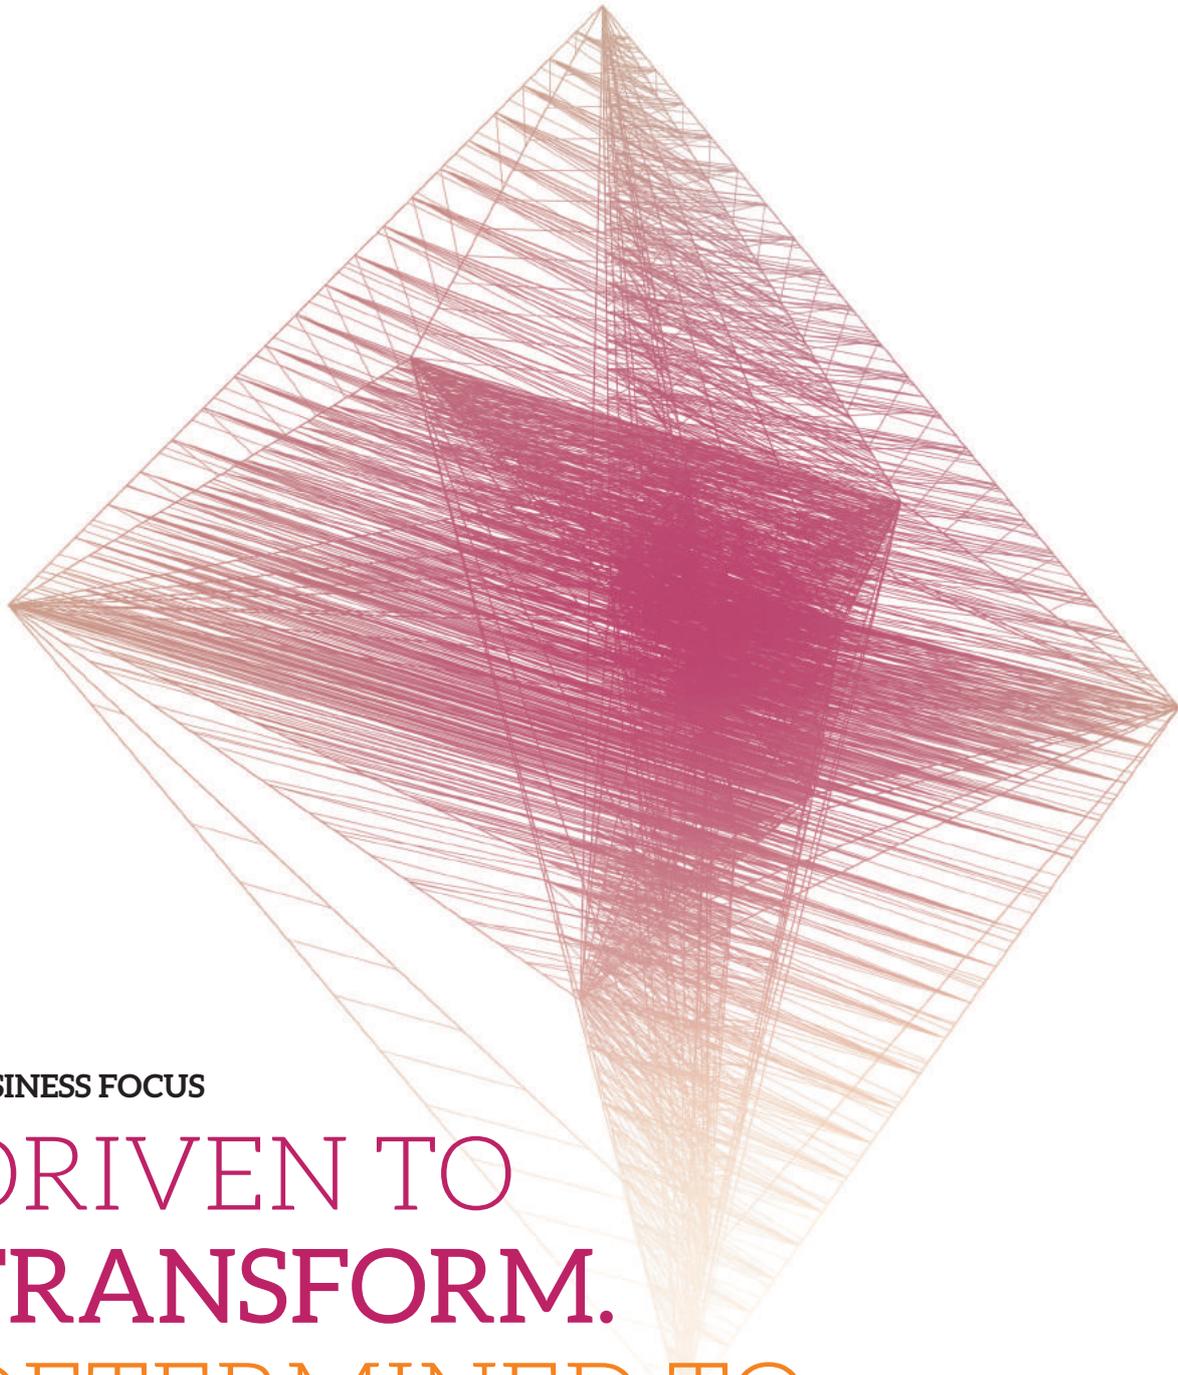

“It gives me immense pleasure to be associated with CGCL. Calling it a “Capri family” perhaps would be more apt. I have joined this organization when the MSME segment was just shaping up and now after four years of sheer determination and dedication, the group has carved out a niche for itself in the market. The exposure which I got in Capri is great and I must say it is the best place to start my career in this industry. In CGCL, it is ensured that hard work and fun goes hand in hand. Participation in events like Stepathlon, Marathon, Health talks, various competitions on different occasions, outings / fun trips ensure perfect balance between work, fun and health.”

Our HR practices during the year

- ▣ Embedded a culture of ownership by delegating authorities at various levels
- ▣ Brought transparency in performance management and reward programs
- ▣ Encouraged personal and professional growth through knowledge management and training & development programs
- ▣ Engineered high performance culture in the organization by reviewing, recognizing and incentivizing on monthly basis
- ▣ Conducted various employee-engagement activities to boost employee morale
- ▣ Built pool of young leaders

BUSINESS FOCUS

**DRIVEN TO
TRANSFORM.
DETERMINED TO
SUCCEED.**

It takes dedication and focus to evolve into a recognised institution. Over the years, we have built a strong reputation on the back of our commitment to creating value for stakeholders. However, one should never rest on laurels and instead, focus on the next level. Therefore, at Capri Global, we are taking various initiatives to leverage the emerging opportunities and strengthen our growth trajectory. This will enable us to prepare ourselves for the next phase of growth.

Our Growth Plan

- ▣ Strengthen focus on MSME & Retail lending and expand branch network
- ▣ Foray into affordable housing finance
- ▣ Enter asset management business
- ▣ Leverage high capital adequacy
- ▣ Invest in people, processes and IT
- ▣ Strengthen risk management framework

Foraying into new businesses

Being a recognised NBFC with strong presence in the real estate and MSME finance segment, we took the next logical step by foraying into the housing finance segment. Our endeavour is to empower the low and middle income customers in smaller towns and assist them in buying their dream homes by introducing special schemes, flexible solutions and hassle-free processing. Our consistent focus will be on groups that need own housing as a means of self-actualisation and financial security.

Besides housing, we also are entering into asset management business to further strengthen our portfolio, after having received the requisite approvals for this. We believe that our experience and understanding of our sector, together with our management depth will be well-utilised in a segment such as Asset Management, and will further allow us to meet the requirements of our customers. It will also ensure that we are leveraging our financial strength to create greater shareholder value.

Strengthening strategic alliance

During the year, we took a step forward to strengthen the strategic alliance between Capri Investment Group (CIG), USA and the Company. This alliance is aimed at imbibing best practices, ensuring robust governance standards and combining the research efforts of the two entities. Going forward, the spirit of this alliance would be realised by working together in raising third-party capital for the proposed asset management business.

Improving systems and processes

An effective collection system is an absolute necessity for NBFCs. To reduce our delinquency levels, we have strengthened our collections efficiency. With a larger collection team and regular follow-ups and reminders, we are on track to achieve best-in-class efficiencies and protect our profitability.

We also endeavour to ensure that our clients receive finance in the shortest possible time, because timely meeting of capital needs is important to them. This is one of our core differentiators, and we are building technology systems and processes to further strengthen our turn round times. Our technology investments will ensure that we are able to provide for the next level of our growth, and improve our operational efficiency and keep the operating costs under control.

Our credit appraisal process has been strengthened significantly, leading to a quicker loan sanction procedure. This builds our competitive position vis-à-vis other financial institutions and creates a differentiator.

We are also investing in technology to manage the business better, and to provide real time information and data to our management and to our field staff, in order that they may take informed decisions. We are ensuring that at all levels people are able to leverage technology and work better in order that Capri Global emerges as a best-in-class financial services institution.

We focus on providing livelihood enhancement opportunities to socially-disadvantaged groups, through our Capri Rozgar initiatives. Some such initiatives include supporting skill training in stitching, umbrella making and switch assembly for specially-abled persons; and ITI training to urban youth in various technical trades, which in turn helps them become employable citizens.

PRAJAKTA MORE'S STORY OF SUCCESS

It was the happiest day of Prajakta's life when she was recruited by Tata Consultancy Services in her final year of engineering (Electronics and Telecommunication). However, her journey so far has been nothing short of a herculean task. Prajakta lost her father in her childhood and since then her mother struggled to make ends meet and educate her.

Even after qualifying for admission in Shah and Anchor Kutcchi College, the huge fees threatened to impede her academic pursuits. She paid her fees by taking loan from a local chit fund at a high rate of interest.

Prajakta's woes finally came to an end, when Capri Foundation accepted her scholarship application. After conducting a proper due-diligence process Capri Foundation sponsored Prajakta's fees till final year of engineering. We at Capri Foundation admire Prajakta for coming this far and we are glad to be able to support 268 more deserving children in the last year.

MSME & RETAIL LENDING

68%

MSME & RETAIL LENDING CONTRIBUTION

We partner MSMEs through their business cycle by providing them the much-needed access to funding. In a market where many large bankers and NBFCs chase the few large companies that require big ticket funding, we position ourselves as financiers to the multitude of MSMEs who seek smaller amounts of growth capital to achieve their ambitions.

Under MSME financing, we provide loans to MSMEs in sectors of wholesale, retail, manufacturing and services. The overall retail book has grown by 70% during 2015-16 which demonstrates the success of the business-development efforts and focus on growing this segment.

Key Highlights 2015-16

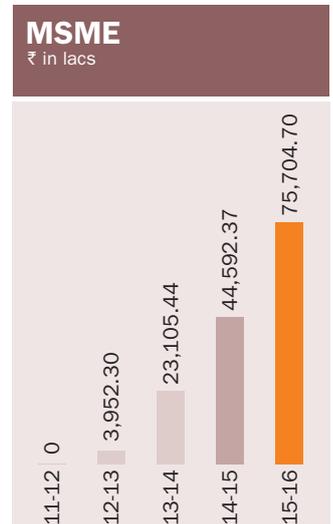

- ▣ More than 80% of our business is PSL (priority sector lending).
- ▣ We are expanding our presence in Maharashtra, Gujarat, Punjab, Tamil Nadu and entire NCR.
- ▣ Disbursed loan worth Rs.47,644 lacs.
- ▣ We received Certificate of Registration from National Housing Bank (NHB) to launch Housing Finance business.

WHOLESALE LENDING CONTRIBUTION

The wholesale lending division focuses on the residential real estate sector, and caters to the needs of this segment through comprehensive financial solutions. This division emphasises on diverse project financing needs over the entire real estate transaction cycle. Through this division, we aim to meet the funding requirements of established Tier-1 developers, as well as upcoming developers in mature markets. With deep industry relationships and excellent in-house risk assessment expertise, this vertical was able to manage risks and optimize returns even in an adverse economic and real estate environment.

Under real estate, we have created a niche for ourselves through offering structured term loans only to multi-family real estate townships / standalone buildings.

Key Highlights 2015-16

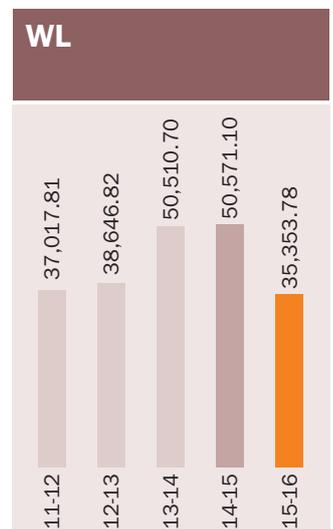

- ▣ We have presence at all major markets like Mumbai, Pune, Bangaluru and NCR Region.

MANAGEMENT DISCUSSION & ANALYSIS

GLOBAL ECONOMY OVERVIEW

The financial year 2015-16 did not witness any major surge in economic activity. Global growth declined from 3.4% in 2014 to 3.1% in 2015. This slowdown was primarily driven by unprecedented decline in oil and commodities prices, volatility in financial markets, decline in trade and low inflationary trends owing to depressed growth around the world.

The US posted 2.4% growth mainly due to the country's improved fiscal and housing situation. The Euro Area grew by 1.5% on the back of robust private consumption, supported by low oil prices and easy financial conditions. The Japanese economy was hampered by a sharp fall in private consumption, resulting in discouraging growth figures. The rebalancing of the Chinese economy had a major impact, especially in the Asia-Pacific region, as it shifted from manufacturing to service sector. This has translated into strong tailwind for China, and is expected to help it post decent, though below par, growth numbers.

Going forward, global growth is projected to improve at slow pace. It is expected to reach 3.2% in 2016 and 3.5% in 2017. The growth projections for all the major economies and regions for 2016-17 are modest. It is believed to be a year of consolidation, where commodities prices are expected to bottom out and a slight pickup witnessed in infrastructure activity.

INDIAN ECONOMY OVERVIEW

Despite continuing global headwinds, India's GDP clocked 7.6% growth in 2015-16, making it one of the fastest growing economies in the world. The Government of India (GoI) focused on strengthening the economy with various pro-reform policy initiatives to improve the country's social and physical infrastructure and set structural drivers for long-term sustainable economic growth.

India's trade deficit came down to \$5.1 billion in March 2016 owing to a sharp decline of upto 21% in imports. The government's adherence to keeping the fiscal deficit within target while managing growth is a positive step, especially in view of the stress and uncertainty in the global economy. The government has targeted to narrow the fiscal deficit to 3.5%

in 2016-17, after maintaining its 3.9% target for 2015-16. Consumer price inflation is also within normal range, hovering around 5%.

Government initiatives, low interest rates, decline in fiscal deficit and moderate inflation have enabled the Indian economy to achieve strong growth estimates. Policy adjustments and improved macro-economic environment have helped India attract more FDI flows during the year compared to last year. With government's growth agenda intact and the tide turning favourable on the economic front, India looks poised to perform better than its global counterparts in 2016-17 and is expected to grow at closer to 8% in 2016-17.

SECTOR OVERVIEW

Financial Services Industry

India's financial services industry is expanding at a rapid pace driven by the government's pro-sector measures, announced in the last fiscal. These initiatives have given significant impetus to the sector that includes, commercial banks, insurance companies, non-banking financial companies, co-operatives, pension funds, mutual funds and other smaller financial entities.

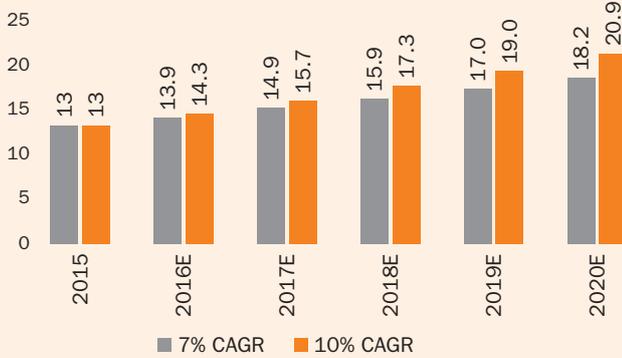

Government schemes like Pradhan Mantri Jan Dhan Yojana, Atal Pension Yojana, MUDRA, the new bankruptcy law, gold monetisation scheme and debt restructuring scheme are contributing to the financial sector's growth. Besides, the sector is positively impacted by favourable micro economic factors like rising income levels, improving life expectancy and good economic growth numbers.

The Reserve Bank of India (RBI) has issued in-principle approvals for setting up ten small finance banks and eleven payment banks. These initiatives are likely to speed up the process of financial inclusion, opening new avenues of funding for micro small and medium enterprises (MSMEs). This in turn is expected to open new business opportunities for NBFCs.

NBFCs - growing in relevance

For over a decade, Indian NBFCs have played a pivotal role in meeting the country's diverse financial requirements. They cater to under-penetrated and unbanked customer segments, fulfilling their financial needs. NBFCs are able to reach deeper, offer more specialised services, and are able to lend to sectors and customers who find it difficult to obtain bank lending. NBFCs have performed well in retail asset-backed lending, lending against securities and microfinance. Besides, they have done substantially well in farm equipment financing, loans for purchase of used commercial vehicles & machinery and small ticket personal loans. NBFCs are expected to play the role of a key financial intermediary, once they are integrated in the financial system with full policy support. Factors like better understanding of customer profile / need, better product lines, wide network, quick turnaround time and robust risk management capabilities will contribute to the growth of NBFCs.

Increased customization is the key to the sector’s satisfactory performance. Innovation-led customised products will set the tone for the sector’s growth momentum, going forward.

Conversion of 10 (ten) micro-finance institutions into small finance banks in the next one year is expected to provide space for the growth of other NBFCs-MFIs. NBFCs can partner with payment banks and small finance banks to provide more financial offerings to consumers, thereby boosting growth prospects. Large exposure regime for banks will come into effect by 2018, which would provide NBFCs more room to operate in big-ticket corporate financing segment in the medium term.

Credit penetration of NBFCs in India at 13% of GDP is still low, compared to other emerging economies (source: Boston Consulting Group). This represents huge untapped opportunities for the sector. According to various estimates, the market share of NBFCs in total credit has increased to 13% in 2015 from 10% in 2005, in just a decade. Improving macroeconomic conditions, higher credit penetration, improved consumption and disruptive digital trends will allow NBFC’s credit to grow at 7–10% (real growth rate) over the next five years.

NBFCs and regulatory environment

The RBI conducted a comprehensive review of NBFC regulations in 2014. The revised regulatory framework is designed to focus supervisory attention to those NBFCs which genuinely can pose risks to the financial system and bring operational freedom to smaller NBFCs. Assets classification and Provisioning norms of NBFCs are going to converge with those of banks by the 2018.

Government Initiatives

- ▣ NBFCs shall be eligible to claim tax deduction to the extent of 5% of total income on account of provision for bad and doubtful debts (NPAs). It has been a long awaited demand to treat the provision of bad debts of NBFCs at par with that of Indian banks in terms of tax deduction. This has only been moderately met as the prescribed percentage is less than that allowed for banks. However, this is a positive development for NBFCs reducing the tax outgo for them. It has provided them a much sought after relief, especially in these rising NPAs scenario.
- ▣ Reversal of input tax is proposed to provide additional options to banking companies, financial institutions and non-banking financial companies, with respect to non-taxable services provided by them by way of extending deposits, loans and advances.
- ▣ FDI will be allowed beyond the 18 specified NBFC activities under the automatic route. This move will help in promoting ease of doing business and attracting overseas investments by doing away with the need of seeking government approvals.
- ▣ In 2015 Union Budget, the finance minister announced that NBFCs would be considered as an eligible financial institution for SARFAESI benefits. However, the corresponding amendment in the SARFAESI Act is yet to be introduced. This move would facilitate faster liquidation of immovable assets for recovery of bad loans.

NBFCs and MSME

The micro, small and medium enterprise (MSME) financing sector is still relatively underpenetrated. Most retail asset financiers are targeting the underpenetrated MSME financing market. The MSME sector includes roughly 36 million units, accounts for 45% manufactured output and 40% exports from the country. The sector contributes to around 37.5% of GDP and provides employment to 111.4 million persons. Owing to the greater flexibility and lower approval time that the sector offers, retail NBFCs are preferred borrowing partner to the MSME segment.

The government is taking proactive measures to help MSME sector. It is creating more awareness, removing technology-related obstacles and providing necessary training to the people engaged in this sector. According to CRISIL, loan against property segment for MSMEs is expected to grow by ₹ 5 lakh crores by 2018-19 and NBFCs are likely to contribute nearly half of this.

NBFC and Real estate sector

India is projected to become the third-largest economy in the world by 2030. An estimated 590 million people will dwell in cities. In 2015, the government announced 'Housing for All by 2020', heralding a new era in the housing finance sector. The scheme became a catalyst to create a supportive environment for expanding credit flow and increasing home ownership.

According to ICRA, the total housing credit outstanding as on December 31, 2015 crossed ₹ 11.9 trillion, thus showcasing a growth of 18% in the nine month of 2015. This is a marked improvement from the previous ₹ 10.5 trillion as on March 31, 2015. The growth can be attributed to the disbursements against construction-related loans, growth in the small ticket affordable housing segment and demand from Tier II and Tier III cities.

Overall, as the growth in the sector is picking up, there is enough opportunity for both banks and NBFCs to cater to this evolving demand. In addition, favourable policy implementations such as bringing housing loans of up to ₹ 50 lakh under affordable housing, ₹ 28 lakh in urban and ₹ 25 lakh in other centres under Priority Sector Lending will contribute to this sector's growth. Moreover, the government has identified 98 cities to be developed as smart cities and announced 20 cities to be taken up in the first phase.

COMPANY OVERVIEW

Capri Global Capital Ltd (CGCL) is a leading Indian NBFC, which focuses on lending to MSME business enterprises as well as residential real estate developers. It has multiple products that include bridge loans to builders, structured debt, loans for working capital for small businesses and plant & machinery purchases. The Company aims to provide customised solutions to borrowers while de-risking the transactions through appropriate collaterals, thus, creating value for its stakeholders.

With a strong market presence in key sectors, CGCL is concentrating on bolstering its MSME vertical. The Company's growing ability to address the evolving financial needs of the sector will enable MSMEs to focus on their core competencies, and they collectively will contribute to the India Growth story. The Company's distribution footprint increased from 9 branches to 23 high potential locations across India during the year. The Company is expanding its presence, thereby strengthening its foothold in the key MSME markets across India.

Branch Expansion over the years

Nos.

CGCL is also focusing on the housing finance segment. It aims to make housing affordable to the society's marginalised sections, especially staying in Tier II and Tier III towns of India. Towards this end, it has recently received approval for undertaking Housing Finance business through its subsidiary. This will help the Company achieve significant growth, going forward and would supplement the existing Wholesale lending business focussed on funding real estate developers.

BUSINESS DIVISIONS

MSME and Retail lending

The Company's MSME & Retail financing vertical provides loans to micro, small and medium enterprises (MSME) in retail, manufacturing and services sector. The overall retail book has grown by 70% during 2015-16 which demonstrates the success of the business-development efforts and focus on growing this segment. CGCL believes that MSMEs are the growth engines which will power the economy forward, and therefore, addressing unmet financial needs of this segment can be a significant value-creation opportunity.

Wholesale lending

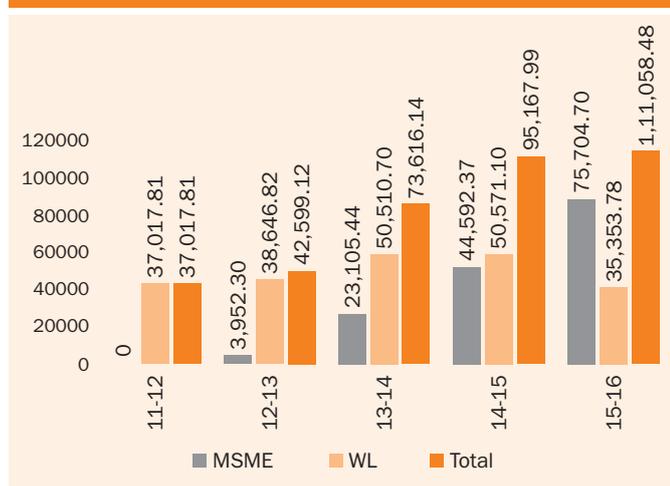

The Wholesale lending vertical aims to provide specialised and holistic solutions to real estate developer, helping them build and grow their businesses. The Company focuses on products in the structured credit space, backed by adequate collaterals and cash flows to build a secured and quality wholesale lending portfolio. The Company has created a niche for itself, offering structured term loans to multi-family real estate townships / standalone buildings.

The Company has consciously adopted a cautious approach towards wholesale lending during the year and has been selective in choosing customers after carrying at stringent due diligence. The Company's wholesale loan book stood at ₹ 35,354 lacs as compared to ₹ 50,571 lacs during the previous year due to slow down in the sector.

The Company's loan book is well distributed both geographically and among a set of selected customers. The portfolio of customers includes residential real estate developers of repute, located in all the major metros including Mumbai, NCR, Pune and Bangaluru.

Loans Book over the years

(₹ in lacs)

Financial Review

	(₹ in lacs)	
	2015-16	2014-15
Total Revenue	18,655.19	19,216.08
Profit Before Depreciation & Taxes (PBDT)	5,544.14	13,946.47
Profit After Tax	4,120.49	8,518.33
Loans & Advances	1,11,058.48	95,167.99
Interest Income	15,908.96	17,031.28
Net Worth	1,08,602.50	1,03,313.84

During 2015-16, CGCL streamlined and expanded its operations after an intensive assessment of emerging economic scenario. It took cognizance of evolving customer needs and designed products and services that are aligned to their aspirations. CGCL also focused on leveraging the power of technology, and adopted a process-oriented approach to lending, to ensure better service delivery to customers and a stronger asset-quality. Given the slowdown experienced in the real-estate sector and the resultant surge in unsold inventory, CGCL consciously restricted the lending to this sector and increased the focus on the MSME business. This has resulted in a lower disbursement of loans for real-estate and an impact on profitability due to a one-time, proactive write-off as a prudent business and derisking strategy.

The revenues were marginally lower during the year at ₹ 18,655.19 lacs, compared to ₹ 19,216.08 lacs during 2014-15. Interest income of the Company was marginally lower by 6.58% as compared to the last year at ₹ 15,908.96 lacs (Previous year ₹ 17,031.28 lacs)

The management decided to write-off loan to the extent of ₹ 6,593.77 lacs (net of adjustments) during the year, due to continuing default by few of the borrowers in repayment of loans. As a result, Profit After Tax (PAT) was lower by 51.63% i.e. ₹ 4120.49 lacs vis-à-vis ₹ 8,518.33 lacs in 2014-15.

The loan book of the Company grew by 16.70% to ₹ 111,058.48 lacs from ₹ 95,167.99 lacs of the previous year. The balance sheet of the company has strengthened further despite the fall in profit and the net worth has increased to ₹ 1,08,603 lacs from ₹ 1,03,314 lacs.

The Capital Adequacy Ratio (CAR), as of March 31, 2016, stood at 79.72% which is well above the regulatory minimum of 15%, providing significant headroom for growth going forward.

The Company was able to secure lines of credit from banks for its business and working capital needs to the extent of ₹ 38,500 lacs during the year as compared to ₹ 10,000 lacs of the previous year.

STRATEGY GOING FORWARD

Maintain strong asset quality and earnings growth – The Company has maintained high-quality loan and investment portfolios through keeping a watch on the target customer base, a comprehensive risk-assessment and thorough risk remediation procedure. It aims to maintain its focus on steady earnings growth through conservative risk management techniques and by accessing low-cost funds.

Leverage existing network with selective expansion – The Company proposes to expand its operations across India in a phased manner. This will help increase its share of the MSME business, by tapping underserved segments – Tier II and Tier III of the Indian economy. The Company aims to have 40-45 branches from the current 23.

Strengthen the IT platform – Technology continues to be a strategic enabler for CGCL. It is primary for the Company's future business growth and cost optimisation. The Company aims to strengthen processes to improve operational efficiency, end-to-end business automation and customer service to support business growth.

OUTLOOK

Over the years, NBFCs have played a significant role in providing small-ticket loans to retail customers in underserved regions, who do not have access to formal sources of finance. There is huge opportunity for credit intermediation and expansion in the country owing to improved economic activity and moderate

interest rates as well as consumer demand. In the coming years, CGCL aims to achieve leadership position in selected customer products and segments; and build skills and capacity through people and technology development, while keeping risk under control.

The Company is prepared to take the next step by:

- ▣ Adopting faster means to expand and improving business operations.
- ▣ Establishing a presence across several parts of India.
- ▣ Developing new and bespoke products to meet diverse customer needs.
- ▣ Integrating operations with technology to improve the overall efficiency levels.

RISKS AND CONCERNS

Risk is the integral part of any business and CGCL is no exception to that. Even as the risk cannot be avoided in a business, it can be minimised or the probability of loss due to manifestation of such risk can be reduced to a greater extent.

Risk management has been institutionalised in CGCL. The Company has formed an apex Risk Management Committee of the Board of Directors, which reviews the implementation of risk management practices in the Company. It guides and advises the management to modify, improve and fine-tune systems and controls continuously to ensure a strong risk management discipline. Being a financial sector player, CGCL is predominantly exposed to typical risks including credit & portfolio risk, finance & liquidity risk, business & market risk, operational & technology risk and regulatory & compliance risk.

Credit Risk – This is a basic and inherent risk involved in lending business wherein the borrowers may fail to repay the loans leading to a risk of upsurge of the bad debts.

Impact on CGCL– Credit risk results in monetary losses (interest and principal), affects the capital adequacy and also casts doubts over the asset quality of the loan book. It further impacts the outlook of rating agencies about the company.

Mitigation – CGCL has a robust credit appraisal system in place along with an efficient monitoring system, designed to minimise the probability of default. The credit appraisal mechanism is founded on three pillars: selection of borrower; business assessment of borrower; and the collateral. CGCL follows quite elaborate process before a borrower is selected to be on board. The resources team is trained to identify a good customer. Subsequently, specialised executives from Company's in-house Fraud Control Unit check the references and antecedents of borrowers, and screen all papers/documents to ensure habitually unscrupulous borrowers are not taken on as customers. The Company has developed and implemented a rigorous credit rating tool in project finance under wholesale lending vertical. It precisely weighs the borrower on the scale

of risk and investment grade. In MSME borrower segment, the business and repaying capacity of the prospective borrower are assessed pragmatically by adopting various measures, apart from traditional method of analysis of financial statements. Post disbursement, monitoring is also quite effective through Escrow arrangements. Besides, collecting and analysing different data and information from borrower, maintain vigorous follow up for recovery instalments of principal & interest and initiating corrective steps on time reduce the chances of impairment of loan assets.

Portfolio Risk – Concentration of credit risk in a particular segment of borrowers or products.

Impact on CGCL – The skew of the credit book in favour of any one sector may result in losses if the sector does not do well. It affects the quality of the asset-book and assessment by financing institutions.

Mitigation – CGCL adopts a vigilant practice to monitor portfolio risk. The wholesale lending business was historically concentrated in the real estate sector. CGCL has of late thoughtfully reduced its exposure to the sector by increasingly concentrating on the MSME segment where there are greater diversification opportunities. The MSME portfolio is well diversified to all business segments i.e. trade, industry, manufacturing, services and professionals, among others. The Company diligently follows prudential exposure norms to restrict credit concentration in any particular industry segment or scheme or product. Extensive MIS and internal controls ensure continuous monitoring of credit and portfolio risk.

Finance Risk – Money is the raw material in lending business. Timely and adequate availability of funds is essential for business growth.

Impact on CGCL – Having insufficient funds will impact the Company's ability to lend to prospective borrowers thus affecting business growth. Adequate balance between owned funds and borrowed funds must be maintained to ensure that the lending ability does not suffer.

Mitigation – With a large owned fund base, CGCL is capable of raising adequate funds from banking system to support the projected business growth. With a low capital gearing, of approximately 0.4 times, CGCL is in strong position to mobilise funds and support business growth without any challenges in foreseeable future. The company has a comfortable capital adequacy ratio, and it has available lines of credit from multiple institutions, that can be tapped whenever the need of funds arises.

Liquidity Risk – Liquidity is an intrinsic risk in the financing activity. It surfaces when there is a mismatch between the raising and deployment of funds, both in terms of tenor and quantum.

Impact on CGCL – Although it is a short-term risk, if not managed efficiently it can cause loss of business as well as revenue losses. Inability to lend when opportunity arises because of a non-availability of immediate funds can be a significant setback.

Mitigation – In CGCL liquidity is dynamically managed by well-equipped treasury. Funds availability and deployment are monitored daily, round-the-clock. The reports are submitted to ALCO members on a daily basis; ALCO reviews the position and forecasts on quarterly basis for next six months.

Business Risk – Volatile macro-economic conditions and change in the sector's attitude towards various economic segments cause ups and downs in the business. There may be increased competition, lower spreads available and non-performance of certain customer segments.

Impact on CGCL – Being forced to lend at lower rates may reduce the profitability. The company's asset book may be impaired if customer business segments are not doing well. If there is overall stress in the lending sector, there may be several regulatory restrictions imposed.

Mitigation – CGCL has a dedicated team to continuously evaluate trends in the economy as well as various sectors of it. With perseverance of research team, business and risk teams are equipped with Industry outlook to facilitate well informed decisions. With increasing competition in the financial markets, the Company's business growth is now subjected to its withstanding ability to face the competition. Keeping in with trends and practices in the market, CGCL has devised a number of tailor-made products to ease the market penetration. Under MSME a new focus area is introduced viz. urban retail for mobilising the business from micro markets within the city. For better reach to such market, the Company has undertaken a branch network expansion programme. Equipped with zealous sales force, range of products, continuous efforts to improve TAT and customer-friendly culture, the Company is efficiently withstanding the competition.

Interest Rates Risk – Fluctuations in interest rates could adversely affect borrowing costs, interest income and net interest margins of companies in the financial sector.

Impact on CGCL – Any changes in interest rates can impact the company's asset –liability position, together with making the business exposed to risk of lower profitability and lower returns.

Mitigation – Interest rate scenario is reviewed by ALCO on quarterly basis and accordingly, base LTRR is fixed. Majority of the portfolio is built on floating interest rates, but at the same time, Company also adopts blended interest rates structure. Interest rates are market driven and CGCL is capable of adapting itself swiftly to the changing market dynamics.

Operational Risk – The lack of a proper flow of and controls over the operations of the company.

Impact on CGCL – If the operations are not sound, it can have an adverse impact on continuity of the business, reputation and profitability of the company.

Mitigation – The Company has adopted all relevant contemporary and technology-based operational methods and systems. For credit delivery/administration, the Company has employed 'OmniFin'. Besides, 'Enterprise Tally' has been installed for accounting to ensure that the Company is maintaining a strict vigil on all operational parameters.

Technology Risk – Technology-driven systems are always extensively exposed to the 'Technology Obsolescence Risk'.

Impact on CGCL – If the technology investments become obsolete, it will impact the overall turnaround time and operations because of others having better technology. It might also add to increased operational cost as fresh investments may be required.

Mitigation – The Company has undertaken suitable initiatives to overcome such risks by evolution of new systems like MinFin-Nuclues and SAP-Basic, among others. Going forward, the Company plans to swiftly adapt to changes to meet the challenges of increasing business volumes. As the Company is in the 'Branches Network Expansion' mode, MPLS VPN has been introduced for secured networking and high availability. Besides, SSL VPN is there for internet locations. In all branches Firewalls are implemented. The Company has a full-fledged IT department, manned by expert professionals. Their services are available round-the-clock to ensure smooth operations, maximum uptime and controls. RESULTS OF OPERATIONS AND STATE OF AFFAIRS:

During the year under review your company has strategically grown the MSME and Retail business while adopting a cautious approach towards lending to the residential real estate sector under the Wholesale business. This strategic focus has yielded the desired results and the loan portfolio has moved positively to 68% (Previous Year 47%) in favour of MSME and Retail business and 32% (Previous Year 53%) for Wholesale business. Accordingly, the loan portfolio of MSME and Retail business has grown to ₹ 75,704.70 lacs (Previous Year ₹ 44,592 lacs) and the Wholesale business loan portfolio has come down to ₹ 35,353.78 lacs (Previous Year ₹ 50,571 lacs). Overall the Loan book of the Company grew by 16.70% to ₹ 1,11,058.48 lacs from ₹ 95,167.99 lacs of the last year.

During the year under review the Real Estate sector witnessed significant slowdown and build up of unsold inventory, thereby affecting the re-payment ability of the real estate developers. Due to continuing default by few of the borrowers in re-payment of loans, the management decided to write-off loan to the extent of ₹ 6593.77 lacs (net of adjustments) during the year. These write-offs considerably lowered the profitability of the Company during the year. The gross revenue of the Company was marginally lower at ₹ 18,655.19 lacs as compared to ₹ 19,216.08 lacs during the previous year, while the Profit After Tax (PAT) was lower by 51.63% i.e. ₹ 4,120.49 lacs as compared to ₹ 8,518.33 lacs of the previous year.

The consolidated gross revenue decreased by 7.52% to ₹ 19,059.15 lacs from ₹ 20,607.96 lacs of previous year, and the consolidated PAT decreased by 54.17% to ₹ 4,364.97 lacs from ₹ 9,523.65 lacs of previous year.

BANK FINANCE

During the year under review the Company raised funds for its working capital and business requirements from various banks to the extent of ₹ 38,500 lacs as compared to ₹ 10,000 lacs sanctioned during the last year.

The total amount of bank loan outstanding was ₹ 14,116.44 lacs as on March 31, 2016 as against ₹ 5,000 lacs on March 31, 2015.

ASSET GROWTH

Total Assets of the Company stood at ₹ 1,30,388.41 lacs as compared to ₹ 1,13,252.34 lacs during the last year, showing an increase of 15.14%.

CAPITAL ADEQUACY RATIO

Your Company's total Capital Adequacy Ratio (CAR), as of March 31, 2016, stood at 79.72% of the aggregate risk weighted assets on balance sheet and risk adjusted value of the off-balance sheet items, which is well above the regulatory minimum of 15%.

STANDARD ASSET'S PROVISIONING

Pursuant to the Notification No. DNBR (PD) CC.No.002/03.10.001/2014-15 dated November 10, 2014 issued by the RBI for making a general provision at 0.30% on the outstanding Standard Assets of NBFCs, your Company has made provision at 0.50% exceeding the statutory requirements.

Further, the Company has decided to create additional Floating Provision @ 1.50% of Standard Assets over and above the statutory requirement, which would be available for adjustment against Provision on Sub-standard Assets.

DIVIDEND

The Directors of the Company have recommended a dividend of ₹ 1.50/- per Equity Share for the financial year ended on March 31, 2016. The dividend on Equity Shares, if approved by the shareholders at the 22nd Annual General Meeting, would amount to ₹ 632.36 lacs (inclusive of dividend distribution tax amount of ₹ 106.96 lacs) and will be paid to those members whose names appear on the Register of Members of the Company as on July 16, 2016.

REPORT ON CORPORATE GOVERNANCE

Sustained strong performance by any company is directly linked to an organisation's philosophy and levels of Corporate Governance. Keeping this important reality in view, your Company has always placed major thrust on managing its affairs with diligence, transparency, responsibility and accountability.

The detailed report on Corporate Governance for the financial year ended March 31, 2016, as per the disclosure requirements prescribed in SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, is set out below:

1. COMPANY'S PHILOSOPHY ON CORPORATE GOVERNANCE

Company's Philosophy on Corporate Governance is a combination of voluntary practices and compliance with laws and regulations leading to delegation of operational powers to experienced staff members, effective control oversight mechanism, strategies and policies which are constantly reviewed and strengthened to be in alignment with market realities and overall management of the organisation.

In ensuring that the desired levels of corporate governance practices are imbibed in the organisation and with a focus on its own fiduciary & trusteeship role, the Board of Directors of the Company seeks to evolve, strengthen and adopt structures and policies which would align and direct the actions of the organisation towards creating wealth and shareholder value. This, together with meaningful CSR activities of the Company has enabled your Company to earn the trust and goodwill of its investors, business partners, employees and the communities in which it operates.

Your Company has adopted various code and policies to carry out duties and functions in most ethical and compliant manner and some of them are:

- i. Code of Conduct for the Board and Senior Managerial Personnel;
- ii. Whistle Blower Policy;
- iii. Corporate Social Responsibility Policy;
- iv. Nomination & Remuneration Policy;
- v. Board Evaluation Policy;
- vi. Fair Practice Code;
- vii. Code for regulating, monitoring and reporting of Trading by Insiders;
- viii. Policy on Related Party Transactions;
- ix. Policy on Material Subsidiaries;
- x. Documents preservation and archival Policy; and
- xi. Policy for determining material events and information

Your Company has complied with the requirements of Corporate Governance as laid down under the provisions of Companies Act, 2013, Clause 49 of the erstwhile Listing Agreement, SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as applicable and RBI directions with regards to Corporate Governance.

2. BOARD OF DIRECTORS

The Company has maintained an optimum combination of Executive and Non-executive Directors including one woman director. As of March 31, 2016, the Board of Directors (the 'Board') consisted of eight members of which five were Independent Directors. The Independent Directors bring independent judgment in the Board's deliberations and decisions. Considering the stringent requirement of the skill-sets on the Board, eminent persons, having an independent standing in their respective field/profession and who can effectively contribute to the Company's business and policy decisions, are considered by the Nomination & Remuneration Committee for appointment of Independent Directors on the Board. The number of directorships and memberships held in various committees of other companies by such persons is also considered. The Board considers the recommendations of the Nomination & Remuneration Committee and takes appropriate decisions in regard to continuance of and induction of new skill sets at the Board level to ensure the availability of these experienced professionals to guide the Company in an ever evolving business environment.

During the year your Company had a Non-executive Chairman and the management of the Company was led by the Executive Director, who operated under the overall supervision, direction and control of the Board. The Board reviews and approves strategy and oversees the actions and results of the management to ensure that the long-term objectives of enhancing stakeholder value are achieved.

None of the Director on the Company's Board is holding office of Director in more than twenty companies and Independent Director in more than seven listed companies. Further, none of the Director is a Member of more than ten committees and Chairman of more than five committees across all the companies in which he/she act as Director. All Non-executive Director are/were liable to retire by rotation.

Familiarisation Programme

At the time of appointing a Director, a formal letter of appointment is given to him, which inter alia explains the roles, rights and responsibilities expected of him as a Director of the Company. The Director is also explained in detail the compliances required from him under the Companies Act, 2013, Clause 49 of the erstwhile Listing Agreement, SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, Code of Conduct, Code for regulating, monitoring and reporting of Trading by Insiders, RBI directions and other relevant regulations.

By way of an introduction to the Company, the Director is presented with, relevant Annual Reports, welcome letter with Company's details. The Executive Director also has a one-to-one discussion with the Director. The Program aims to provide insights into the Company to enable the Director to be in a position to take well-informed timely decisions and contribute significantly to the Company.

At every Board meeting, the Executive Director and the departmental heads apprise the Board members of the business operations, significant changes in operating environment, risks and mitigation strategies of the Company, to keep them abreast of the developments taken place between the meetings.

The Independent Directors of the Company are given every opportunity to familiarize themselves with the Company, its management and operations so as to understand the Company, business, industry and environment in which it functions.

The details of the familiarization programme for Independent Directors has been uploaded on the Company's website i.e. on

Auditor's Responsibility

Our responsibility is to express an opinion on these standalone financial statements based on our audit.

We have taken into account the provisions of the Act and the Rules made thereunder including the accounting and auditing standards and matters which are required to be included in the audit report.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act and other authoritative pronouncements issued by the Institute of Chartered Accountants of India. Those Standards and pronouncements require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the standalone financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the standalone financial statements. The procedures selected depend on the

auditor's judgment, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the standalone financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India:

- a) In the case of the Balance Sheet, of the state of affairs of the Company as at March 31, 2016;
- b) In the case of the Statement of Profit and Loss, of the **Profit** for the year ended on that date; and
- c) In the case of the Cash Flow Statement, of the cash flows for the year ended on that date.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government of India in terms of Sub-section (11) of Section 143 of the Companies Act, 2013 and on the basis of such checks of the books and records of the Company as we considered appropriate and according to the information and explanations given to us, we give in the Annexure-A a statement on the matters specified in paragraphs 3 and 4 of the Order.
2. As required by section 143(3) of the Act, we report that :
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
 - b) In our opinion, proper books of account as required by law have been kept by the Company, so far as appears from our examination of those books;
 - c) The Balance Sheet, the Statement of Profit and Loss and the Cash Flow Statement dealt with by this report are in agreement with the books of account;

- d) In our opinion the aforesaid standalone financial statement comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
- e) On the basis of written representations received from the directors as on March 31, 2016, and taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2016, from being appointed as a director in terms of Section 164 (2) of the Act.
- f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in Annexure - B.
- g) With respect to the other matters to be included in the Auditor's Report in accordance with the Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us, we report that:
- i) The Company does not have any pending litigations which would impact its financial position.
- ii) The Company did not have any long term contracts including derivative contracts for which there were any material foreseeable losses.
- iii) There were no amounts which were required to be transferred to the Investors Education and Protection Fund by the Company.

Annexure - A to Independent Auditors' Report

The Annexure referred to in paragraph 1 under the 'Report on Other Legal and Regulatory Requirements' our report to the members of CAPRI GLOBAL CAPITAL LIMITED, ('the Company') for the year ended on March 31, 2016. We report that:-

- i. In respect of its fixed assets:
 - (a) The Company is maintaining proper records showing full particulars including quantitative details and situation of fixed assets.
 - (b) The Company has a regular programme of physical verification of fixed assets which is, in our opinion, reasonable having regard to the size of the Company and the nature of its assets. In accordance with this programme, certain fixed assets have been physically verified by the management during the year and no material discrepancies have been noticed on such verification.
 - (c) As per the information and explanation given to us by the management, the Company does not own any immovable property. Accordingly, the provisions of Clause 3(i)(c) of the Order are not applicable to the Company.
- ii. In respect of its inventories:

The inventory has been physically verified during the year by the management. In our opinion, the frequency of verification is reasonable. There were no material discrepancies noticed on physical verification of inventories as compared to the book records.
- iii. The Company has not granted any loans, secured or unsecured to Companies, firms, Limited Liability Partnerships or other parties covered in the register maintained under section 189 of the Act and hence provisions of Clause 3(iii) of the aforesaid Order are not applicable to the Company.
- iv. The Company has not granted any loans or made any investments, or provided any guarantee or security to the parties covered under Section 185 and 186 and hence provisions of Clause 3(iv) of the aforesaid Order are not applicable to the Company.
- v. In our opinion and according to the information and explanations given to us, the Company has not accepted deposits from the public within the meaning of Sections 73, 74, 75 and 76 of the Act and the Rules framed thereunder to the extent notified.
- vi. In our opinion and according to the information and explanations given to us maintenance of cost records under sub-section (1) of the Section 148 of the Companies Act, 2013 has not been prescribed by the government.
- vii. (a) According to the records of the Company, the Company is generally regular in depositing with appropriate authorities undisputed statutory dues including provident fund, employees' state insurance, income-tax, sales tax, wealth tax, duty of customs, duty of excise, value added tax or cess and other statutory dues applicable to it. No undisputed amounts payable in respect of provident fund, employees' state insurance, income-tax, sales tax, wealth tax, duty of customs, duty of excise, value added tax or cess and other statutory dues were outstanding, as at 31-03-2016, for a period of more than six months from the date they became payable.
 - (b) According to the records of the Company and information and explanations given to us no dues of income tax, sales tax, wealth tax, service tax, duty of customs, duty of excise, value added tax or cess that have not been deposited on account of any disputes.
- viii. Based on our audit procedures and according to the information and explanations given to us by the management, we are of the opinion that the Company has not defaulted in repayment of dues to financial institutions and bank.
- ix. The Company has not raised any money by way of initial public offer, further public offer (including debt instruments) and term loans and hence provisions of Clause 3(ix) of the aforesaid Order are not applicable to the Company.
- x. During the course of our examination of the books and records of the Company, carried out in accordance with the generally accepted auditing practices in India, and according to the information and explanations given to us, we have neither come across any instance of material fraud by the Company or on the Company by its officers or employees, noticed or reported during the year, nor have we been informed of any such case by the management.
- xi. The Company has paid/provided managerial remuneration in accordance with the requisite approvals mandated by the provision of the Section 197 read with Schedule V of the Act.
- xii. The Company is not a Nidhi Company and the Nidhi Rules, 2014 are not applicable to the Company and hence provisions of Clause 3(xii) of the aforesaid Order are not applicable to the Company.
- xiii. The Company has entered into the transaction with the related parties in compliance with the provisions

of the Section 177 and 188 of the Act. The details of such related party transactions have been disclosed in the standalone financial statements as required under Accounting Standard (AS)18, Related Party Disclosures specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.

xiv. The Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year under review and hence provisions of Clause 3(xiv) of the aforesaid Order are not applicable to the Company.

xv. The Company has not entered into any non-cash transactions with its directors or the persons connected

with him and hence provisions of Clause 3(xv) of the aforesaid Order are not applicable to the Company.

xvi. The Company has obtained registration as required under Section 45-IA of the Reserve Bank of India Act, 1934.

Annexure - B to Independent Auditors' Report

The Annexure referred to in paragraph 2(f) under the 'Report on Other Legal and Regulatory Requirements' our report to the members of **CAPRI GLOBAL CAPITAL LIMITED**, ('the Company') for the year ended on March 31, 2016.

Report on the Internal Financial Controls under Clause (i) of Sub-Section 3 of Section 143 of the Act

We have audited internal financial controls over financial reporting of **CAPRI GLOBAL CAPITAL LIMITED** ("the Company") as of March 31, 2016 in conjunction with our audit of the standalone financial statements of the Company for the year then ended on that date.

Management's Responsibility for the Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities includes design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of business, including adherence to Company's policies, the safeguarding of the assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting ('the Guidance Note') and the Standards on Auditing deemed to be prescribed under Section 143(10) of the Act to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued by the ICAI. Those Standards and Guidance note require that we comply with ethical requirements and plan and perform audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedure to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over

financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal controls based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide a reasonable assurance regarding the reliability of financial reporting and preparation of financial statements for external purpose in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that:

1. Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company;
2. Provide reasonable assurance that the transactions are recorded as necessary to permit preparation of financial statements in accordance with the generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and
3. Provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial control over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material aspects, an adequate internal financial control system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India.

NOTES TO FINANCIAL STATEMENTS

for the year ended 31st March, 2016

1. Significant Accounting Policies

1.1 Basis of preparation

The financial statements of the company have been prepared in accordance with generally accepted accounting principles in India (Indian GAAP) to comply with the accounting standards specified under section 133 of the Companies Act, 2013, read with Rule 7 of the Companies (Accounts) Rules, 2014 and the relevant provisions of the Companies Act, 2013 and guidelines issued by the Reserve Bank of India ('RBI') as applicable to a Non Banking Finance Company. The financial statements have been prepared on an accrual basis and under the historical cost convention.

The accounting policies adopted in the preparation of financial statements are consistent with those of previous year.

1.2 Use of Estimates:

Presentation and Disclosure of Financial Statement

The preparation of financial statements in conformity with Indian GAAP requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenue, expenses, assets and liabilities and the disclosure of contingent liabilities, at the end of the reporting period. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods.

1.3 Revenue Recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured. The following specific recognition criteria are met before revenue is recognized:

a) Sale of Traded Goods

Revenue from sale of traded goods is recognized when all the significant risks and rewards of ownership of the traded goods have been passed to the buyer.

b) Income from Advisory Services

Income from Advisory Services are accounted for as and when the relevant services are rendered and revenue is recognised using completed service contract method except where the recovery is uncertain in which case it is accounted for on receipt.

c) Interest

Interest income is recognized on a time proportion basis taking into account the amount outstanding and the applicable interest rate. Interest income is included under the head "Revenue from Operations" in the statement of profit and loss. Delayed Payment

charges, Penal Interest, Other Penal Charges, etc., are recognised on receipt basis on account of uncertainty of the ultimate collection of the same. Further, in accordance with the guidelines issued by the Reserve Bank of India for Non-Banking Finance Companies, income on business assets classified as Non-performing Assets, is also recognised on receipt basis.

d) Dividends

Dividend income is recognized when the company's right to receive dividend is established on the reporting date.

1.4 Inventories

The inventories held as stock-in-trade under current assets are valued at lower of cost or market value.

1.5 Cash and Cash Equivalents

Cash and Cash Equivalents for the purposes of cash flow statement comprise cash at bank and in hand and short term investments with an original maturity of three months or less, as per Accounting Standard 3 "Cash Flows".

1.6 Tangible Fixed Assets

Tangible Fixed Assets are stated at cost less accumulated depreciation and impairment losses, if any. The cost of fixed assets comprises purchase price and any attributable cost of bringing the asset to its working condition for its intended use.

1.7 Depreciation on Tangible Fixed Assets

The Company has worked depreciation with reference to the Useful life of Fixed Assets prescribed by the PART C of Schedule II to the Act. The carrying values have been depreciated over the remaining useful life of the Asset using Written Down Value Method and the same is recognised in the Statement of Profit and Loss.

1.8 Intangible Assets

Intangible Assets are stated at cost less accumulated amortisation and impairment losses, if any. The cost of intangible assets comprises purchase price and any attributable cost of bringing the asset to its working condition for its intended use. Intangible assets are amortized over the useful life on prorata basis under the straight line method as estimated by the management, which is generally between three to five years.

1.9 Impairment of Tangible and Intangible Assets:

The carrying amount of assets is reviewed at each balance sheet date if there is any indication of impairment based on internal/external factors. An impairment loss is recognized wherever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the greater of the assets, net selling price and value in

NOTES TO FINANCIAL STATEMENTS

for the year ended 31st March, 2016

use. In assessing value in use, the estimated future cash flows are discounted to their present value at the weighted average cost of capital.

After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life. A previously recognized impairment loss is increased or reversed depending on changes in circumstances. However the carrying value after reversal is not increased beyond the carrying value that would have prevailed by charging usual depreciation if there was no impairment.

1.10 Foreign Currency Translation

a) Foreign Currency Transactions and Balances

(i) Initial recognition

Foreign Currency Transactions are recorded in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of the transaction. Exchange differences, if any, arising out of transactions settled during the year are recognised in the statement of profit and loss.

(ii) Conversion

Monetary assets and liabilities denominated in the foreign currencies as at the Balance Sheet date are translated at the closing exchange rates on that date. The exchange differences, if any, are recognised in the statement of profit & loss and related assets and liabilities are accordingly restated in the Balance Sheet.

1.11 Investments:

Investments which are readily realizable and intended to be held for not more than one year from the date on which such investments are made, are classified as current investments. All other investments are classified as long term investments.

Current investments are carried in the financial statements at lower of cost and fair value determined on an individual investment basis. Long Term Investments are carried at cost. However, provision for diminution in value is made to recognize a decline other than temporary in the value of the investments. In case of investments in mutual funds, the net asset value of units declared by the mutual funds is considered as the fair value.

On disposal of an investment, the difference between its carrying amount and net disposal proceeds is charged or credited to the statement of profit and loss.

1.12 Retirement and other employee benefits

The Company has adopted the revised Accounting Standard 15 – Accounting for Employee Benefits. The accounting

policy followed by the Company in respect of its employee benefit schemes is set out below:

Gratuity:

The Company has funded Defined Benefit Obligation Plan for gratuity to its employees, who have completed five years or more of service, under the group gratuity scheme of Life Insurance Corporation (LIC) of India & to HDFC Standard Life Insurance Company. The Company has created planned assets by contribution to the gratuity fund with LIC of India & HDFC Standard Life Insurance Company Limited.

Leave Encashment:

Provision for Leave Encashment is made on the basis of Actuarial Valuation.

1.13 Employee stock Compensation Cost

Measurement and disclosure of the employee share-based payment plans is done in accordance with SEBI (Employee Stock Option Scheme and Employee Stock Purchase Scheme) Guidelines, 1999 and the Guidance Note on Accounting for Employee Share-based Payments, issued by ICAI. The Company measures compensation cost relating to employee stock options using the intrinsic value method. Compensation expense is amortized over the vesting period of the option on a straight line basis.

1.14 Leases

Where the Company is lessee

Leases, where the lessor effectively retains substantially all the risks and benefits of ownership of the leased item, are classified as operating leases. Operating lease payments are recognized as an expense in the statement of profit and loss on a straight line basis over the lease term.

1.15 Earnings Per Share

The Company reports basic and diluted earnings per share in accordance with Accounting Standard 20 – Earning per Share.

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting preference dividends and attributable taxes) by the weighted average number of equity shares outstanding during the period. Partly paid equity shares are treated as fraction of an equity share to the extent that they are entitled to participate in dividends relative to a fully paid equity share during the reporting period. The Weighted average number of equity shares outstanding during the period is adjusted for events such as bonus issue, bonus element in a rights issue, share split, and reverse share split (consolidation of shares) that have changed the number of equity shares outstanding, without a corresponding change in resources.

NOTES TO FINANCIAL STATEMENTS

for the year ended 31st March, 2016

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

1.16 Taxes on Income

Income tax expenses comprises of current tax (i.e. amount of tax for the period determined in accordance with the income-tax law) & the deferred tax charge or benefit (reflecting the tax effect of timing differences between accounting income and taxable income for the period).

Deferred Taxation:

The deferred tax charge or benefit and the corresponding deferred tax liabilities and assets are recognised using the tax rates that have been enacted or substantially enacted as at the balance sheet date. Deferred tax assets are recognised only to the extent there is reasonable certainty that the asset can be realised in future; however, where there is unabsorbed depreciation or carried forward loss under taxation laws, deferred tax assets are recognised only if there is a virtual certainty of realisation of the assets. Deferred tax assets are reviewed as at each balance sheet date and written down or written up to reflect the amount that is reasonable/virtually certain (as the case may be) to be realised.

1.17 Provisions

The company creates a provision when there is present obligation as a result of a past event that probably requires

an outflow of resources and a reliable estimate can be made of the amounts of the obligation. Provisions are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the reporting date. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates. If it is no longer probable that the outflow of resources would be required to settle the obligation, the provision is reversed.

1.18 Contingent Liabilities / Assets

A contingent liabilities is a possible obligation that arise from past events whose existence will be confirmed by the occurrence or non occurrence of one or more uncertain future events beyond the control of the company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The company does not recognize a contingent liability but discloses its existence in the financial statements.

Contingent assets are not recognised in the financial statements. However contingent assets are assessed continually and if it is virtually certain that an economic benefit will rise, asset and related income are recognised in the period in which the change occurs.

38 The Hon'ble High Court of Judicature at Bombay on 11th September, 2015 approved the Scheme of Amalgamation of Capri Global Distribution Company Private Limited and Capri Global Finance Private Limited and Capri Global Investment Advisors Private Limited and Capri Global Research Private Limited ('the Transferor Companies') with Capri Global Capital Limited and their respective shareholders and creditors ('the Scheme'). The Scheme became effective on 19th October, 2015 upon obtaining all sanctions and approvals as required under the Scheme. The Appointed Date for the merger is 1st April 2015. As the Transferor Companies were wholly owned subsidiaries of the Company, no shares of the Company were issued and allotted pursuant to the Scheme.

NOTES TO FINANCIAL STATEMENTS

for the year ended 31st March, 2016

Pursuant to the Scheme, the entire business including the assets, liabilities, duties & obligations of the Transferor Companies have become vested in the Company w.e.f. 1st April, 2015. Since the Scheme got the requisite approvals in the financial year ended 31st March, 2016, the impact of the amalgamation has been given in the current financial year itself.

In accordance with the provisions of the Scheme; •

- ▣ The investments held by the Company in the Transferor Companies / Wholly Owned Subsidiaries were cancelled.
- ▣ The amalgamation is accounted under the Pooling of Interest Method as per Accounting Standard 14 - Accounting for Amalgamations as referred to in the Scheme of Amalgamation approved by the Hon'ble Bombay High Court.
- ▣ The value of investments of the Transferor Companies in the books of the Transferee Company was equivalent to the paid up value of the Transferor Companies, hence no goodwill or capital reserve was created on the said amalgamation.

The Company has recognised the impact of the said Scheme during the year as per the details below:

Note : Pursuant to the Scheme, the entire business including the assets, liabilities, duties & obligations of the Transferor Companies have become vested in the Transferee Company w.e.f. 1st April, 2015. The figures for the year ended 31st March, 2016 are not comparable with the corresponding previous year to that extent.

39. The Non-Banking Financial (Non-Deposit Accepting or Holding) Companies Prudential Norms (Reserve Bank) Directions, 2007, require the Company to make provision for standard assets at 0.30 percent of the Standard Assets. However, as a prudent practice, the Company has adopted to make provision of 0.50 percent. Consequently, during the current financial year, the profits of the company are lower by ₹ 34.24 Lacs.

Further, in pursuance to the Company's Board approved policy, the Company has started making an additional Floating Provision on Standard Assets of 1.5 percent and the same has been fully utilised towards Write off to the extent of ₹ 1,489.43 Lacs.

40. In the opinion of the Board, the Current Assets, Loans & Advances are realizable in the ordinary course of business at least equal to the amount at which they are stated in the Balance Sheet. The provision for all known liabilities is adequate and not in excess of the amount reasonably necessary.

41. Previous year figures

Previous year figures have been regrouped and reclassified wherever necessary to confirm to current year's presentation.

INDEPENDENT AUDITORS' REPORT

TO THE MEMBERS OF
CAPRI GLOBAL CAPITAL LIMITED

Report on the Consolidated Financial Statements

We have audited the accompanying consolidated financial statements of **CAPRI GLOBAL CAPITAL LIMITED** ("the Holding Company") and its subsidiaries (together referred to as "Group"), comprising of the Consolidated Balance Sheet as at March 31, 2016, the Consolidated Statement of Profit and Loss, the Consolidated Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the Consolidated Financial Statement").

Management's Responsibility for the Consolidated Financial Statements

The Holding Company's Board of Directors is responsible for the preparation of these consolidated financial statements in terms of requirements of the Companies Act, 2013 (hereinafter referred to as "the Act") that give a true and fair view of the consolidated financial position, consolidated financial performance and consolidated cash flows of the Group in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. The Holding Company's Board of Directors is also responsible for ensuring accuracy of the records including financial information considered necessary for the preparation of Consolidated Financial Statements. The respective Board of Directors of the Companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which has been used for purpose of preparation of the Consolidated Financial Statements by the Directors of the Holding Company as aforesaid.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. While conducting audit,

We have taken into account the provisions of the Act and the Rules made thereunder including the accounting and auditing standards and matters which are required to be included in the audit report.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act and other

authoritative pronouncements issued by the Institute of Chartered Accountants of India. Those Standards and pronouncements require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Holding Company's preparation of the consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Holding Company's Directors, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the consolidated financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India:

- a) In the case of the Consolidated Balance Sheet, of the state of affairs of the Company as at March 31, 2016;
- b) In the case of the Consolidated Statement of Profit and Loss, of the **Profit** for the year ended on that date; and
- c) In the case of the Consolidated Cash Flow Statement, of the cash flows for the year ended on that date.

Report on Other Legal and Regulatory Requirements

1. As required by section 143(3) of the Act, we report that :
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements;
 - b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books and the reports of the other auditors

- c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss, and the Consolidated Cash Flow Statement dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements.
- d) In our opinion, the aforesaid consolidated financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
- e) On the basis of written representations received from the directors of the Group as on March 31, 2016, and taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2016, from being appointed as a director in terms of Section 164 (2) of the Act.
- f) With respect to the adequacy of the internal financial controls over financial reporting and the operating effectiveness of such controls relevant to the Holding Company's preparation of the consolidated financial statements, we refer to Annexure-B of our report of even date on the standalone financial statements of the Holding Company.
- g) With respect to the other matters to be included in the Auditor's Report in accordance with the Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us, we report that:
- i) There were no pending litigations which would impact the consolidated financial position of the Group.
 - ii) The Group did not have any material foreseeable losses on long-term contracts including derivative contracts.
 - iii) There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Holding Company, and its subsidiary companies.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

for the year ended 31st March, 2016

1. Significant Accounting Policies

1.1 Basis of preparation

The financial statements of the company have been prepared in accordance with generally accepted accounting principles in India (Indian GAAP) to comply with the accounting standards specified under section 133 of the Companies Act, 2013, read with Rule 7 of the Companies (Accounts) Rules, 2014 and the relevant provisions of the Companies Act, 2013 and guidelines issued by the Reserve Bank of India ('RBI') as applicable to a Non Banking Finance Company. The financial statements have been prepared on an accrual basis and under the historical cost convention.

The accounting policies adopted in the preparation of financial statements are consistent with those of previous year.

1.2 Use of Estimates:

Presentation and Disclosure of Financial Statement

The preparation of financial statements in conformity with Indian GAAP requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenue, expenses, assets and liabilities and the disclosure of contingent liabilities, at the end of the reporting period. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods.

1.3 Basis of Consolidation:

The consolidated financial statements relate to Capri Global Capital Limited (the Parent Company) and its subsidiary companies.

(i) Principles of Consolidation:

The consolidated financial statements have been prepared in accordance with Accounting Standard 21 (AS-21) - "Consolidated Financial Statements" as specified under section 133 of the Companies Act, 2013, read with Rule 7 of the Companies (Accounts) Rules, 2014. The consolidated financial statements have been prepared on the following basis:

- a) The financial statements of the Parent and its subsidiary companies (together the "Group") have been combined on a line by line basis by adding together the book values of like items of assets, liabilities, income and expenses, after fully eliminating intra-group balances and unrealised profits or losses on intra-group transactions.

- b) The consolidated financial statements have been prepared using uniform accounting policies for like transactions and other events in similar circumstances and are presented, to the extent possible, in the same manner as the Parent Company's separate financial statements. Appropriate adjustments have been made in the financial statements of the subsidiaries with respect to different accounting policies for like transaction and events in similar circumstances for the purpose of preparation of consolidated financial statements.

- c) The excess of cost to the Parent Company of its investment in the subsidiary over the Parent Company's portion of equity of the subsidiary is recognised in the financial statements as Goodwill. This Goodwill is tested for impairment at the end of the financial year. The excess of Parent Company's portion of equity over the cost of investment as at the date of its investment is treated as Capital Reserve.

- d) The financial statements of the subsidiaries used in consolidation are drawn up to the same reporting date as that of the Parent Company i.e. year ended March 31, 2016.

(ii) Wholly owned Indian subsidiary companies included in the consolidated financial statements Name of Subsidiaries ;

- a) Capri Global Housing Finance Private Limited (Formerly known as Capri Global Securities Private Limited)
- b) Capri Global Resources Private Limited (Formerly known as Money Matters Resources Private Limited)

(iii) Wholly owned Indian subsidiary companies merged in Holding Company

- a) Capri Global Investment Advisors Private Limited (Formerly known as Money Matters Investment Advisors Private Limited)
- b) Capri Global Distribution Company Private Limited (Formerly known as Money Matters Distribution Company Private Limited)
- c) Capri Global Finance Private Limited (Formerly known as Money Matters Capital Private Limited)
- d) Capri Global Resources Private Limited (Formerly known as Money Matters Resources Private Limited)

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

for the year ended 31st March, 2016

1.4 Revenue Recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured. The following specific recognition criteria are met before revenue is recognized:

a) Sale of Traded Goods

Revenue from sale of traded goods is recognized when all the significant risks and rewards of ownership of the traded goods have been passed to the buyer.

b) Income from Advisory Services

Income from Advisory Services are accounted for as and when the relevant services are rendered and revenue is recognised using completed service contract method except where the recovery is uncertain in which case it is accounted for on receipt.

c) Interest

Interest income is recognized on a time proportion basis taking into account the amount outstanding and the applicable interest rate. Interest income is included under the head "Revenue from Operations" in the statement of profit and loss. Delayed Payment charges, Penal Interest, Other Penal Charges, etc., are recognised on receipt basis on account of uncertainty of the ultimate collection of the same. Further, in accordance with the guidelines issued by the Reserve Bank of India for Non-Banking Finance Companies, income on business assets classified as Non-performing Assets, is also recognised on receipt basis.

d) Dividends

Dividend income is recognized when the company's right to receive dividend is established on the reporting date.

1.5 Inventories

The inventories held as stock-in-trade under current assets are valued at lower of cost or market value.

1.6 Cash and Cash Equivalents

Cash and Cash Equivalents for the purposes of cash flow statement comprise cash at bank and in hand and short term investments with an original maturity of three months or less, as per Accounting Standard 3 "Cash Flows".

1.7 Tangible Fixed Assets

Tangible Fixed Assets are stated at cost less accumulated depreciation and impairment losses, if any. The cost of fixed assets comprises purchase price and any attributable cost of bringing the asset to its working condition for its intended use.

1.8 Depreciation on Tangible Fixed Assets

The Company has worked depreciation with reference to the Useful life of Fixed Assets prescribed by the PART C of Schedule II to the Act. The carrying values have been depreciated over the remaining useful life of the Asset using Written Down Value Method and the same is recognised in the Statement of Profit and Loss.

1.9 Intangible Assets

Intangible Assets are stated at cost less accumulated amortisation and impairment losses, if any. The cost of intangible assets comprises purchase price and any attributable cost of bringing the asset to its working condition for its intended use. Intangible assets are amortized over the useful life on prorata basis under the straight line method as estimated by the management, which is generally between three to five years.

1.10 Impairment of Tangible and Intangible Assets

The carrying amount of assets is reviewed at each balance sheet date if there is any indication of impairment based on internal/external factors. An impairment loss is recognized wherever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the greater of the assets, net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value at the weighted average cost of capital.

After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life. A previously recognized impairment loss is increased or reversed depending on changes in circumstances. However the carrying value after reversal is not increased beyond the carrying value that would have prevailed by charging usual depreciation if there was no impairment.

1.11 Foreign Currency Translation

a) Foreign Currency Transactions and Balances

(i) Initial recognition

Foreign Currency Transactions are recorded in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of the transaction. Exchange differences, if any, arising out of transactions settled during the year are recognised in the statement of profit and loss.

(ii) Conversion

Monetary assets and liabilities denominated in the foreign currencies as at the Balance Sheet date are translated at the closing exchange rates on that date. The exchange differences, if

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

for the year ended 31st March, 2016

any, are recognised in the statement of profit & loss and related assets and liabilities are accordingly restated in the Balance Sheet.

1.12 Investments

Investments which are readily realizable and intended to be held for not more than one year from the date on which such investments are made, are classified as current investments. All other investments are classified as long term investments.

Current investments are carried in the financial statements at lower of cost and fair value determined on an individual investment basis. Long Term Investments are carried at cost. However, provision for diminution in value is made to recognize a decline other than temporary in the value of the investments. In case of investments in mutual funds, the net asset value of units declared by the mutual funds is considered as the fair value.

On disposal of an investment, the difference between its carrying amount and net disposal proceeds is charged or credited to the statement of profit and loss.

1.13 Retirement and other employee benefits

The Company has adopted the revised Accounting Standard 15 – Accounting for Employee Benefits. The accounting policy followed by the Company in respect of its employee benefit schemes is set out below:

Gratuity:

The Company has funded Defined Benefit Obligation Plan for gratuity to its employees, who have completed five years or more of service, under the group gratuity scheme of Life Insurance Corporation (LIC) of India & to HDFC Standard Life Insurance Company. The Company has created planned assets by contribution to the gratuity fund with LIC of India & HDFC Standard Life Insurance Company Limited.

Leave Encashment:

Provision for Leave Encashment is made on the basis of Actuarial Valuation.

1.14 Employee stock Compensation Cost

Measurement and disclosure of the employee share-based payment plans is done in accordance with SEBI (Employee Stock Option Scheme and Employee Stock Purchase Scheme) Guidelines, 1999 and the Guidance Note on Accounting for Employee Share-based Payments, issued by ICAI. The Company measures compensation cost relating to employee stock options using the intrinsic

value method. Compensation expense is amortized over the vesting period of the option on a straight line basis.

1.15 Leases

Where the Company is lessee

Leases, where the lessor effectively retains substantially all the risks and benefits of ownership of the leased item, are classified as operating leases. Operating lease payments are recognized as an expense in the statement of profit and loss on a straight line basis over the lease term.

1.16 Earnings Per Share

The Company reports basic and diluted earnings per share in accordance with Accounting Standard 20 – Earning per Share.

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting preference dividends and attributable taxes) by the weighted average number of equity shares outstanding during the period. Partly paid equity shares are treated as fraction of an equity share to the extent that they are entitled to participate in dividends relative to a fully paid equity share during the reporting period. The Weighted average number of equity shares outstanding during the period is adjusted for events such as bonus issue, bonus element in a rights issue, share split, and reverse share split (consolidation of shares) that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

1.17 Taxes on Income

Income tax expenses comprises of current tax (i.e. amount of tax for the period determined in accordance with the income-tax law) & the deferred tax charge or benefit (reflecting the tax effect of timing differences between accounting income and taxable income for the period).

Deferred Taxation:

The deferred tax charge or benefit and the corresponding deferred tax liabilities and assets are recognised using the tax rates that have been enacted or substantially enacted as at the balance sheet date. Deferred tax assets are recognised only to the extent there is

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

for the year ended 31st March, 2016

reasonable certainty that the asset can be realised in future; however, where there is unabsorbed depreciation or carried forward loss under taxation laws, deferred tax assets are recognised only if there is a virtual certainty of realisation of the assets. Deferred tax assets are reviewed as at each balance sheet date and written down or written up to reflect the amount that is reasonable/virtually certain (as the case may be) to be realised.

1.18 Provisions

The company creates a provision when there is present obligation as a result of a past event that probably requires an outflow of resources and a reliable estimate can be made of the amounts of the obligation. Provisions are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the reporting date. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates. If it is no longer probable that the outflow of resources would be required to settle the obligation, the provision is reversed.

1.19 Contingent Liabilities / Assets

A contingent liabilities is a possible obligation that arise from past events whose existence will be confirmed by the occurrence or non occurrence of one or more uncertain future events beyond the control of the company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The company does not recognize a contingent liability but discloses its existence in the financial statements.

Contingent assets are not recognised in the financial statements. However contingent assets are assessed continually and if it is virtually certain that an economic benefit will rise, asset and related income are recognised in the period in which the change occurs.

36. The Hon'ble High Court of Judicature at Bombay on 11th September, 2015 approved the Scheme of Amalgamation of Capri Global Distribution Company Private Limited and Capri Global Finance Private Limited and Capri Global Investment Advisors Private Limited and Capri Global Research Private Limited ('the Transferor Companies') with Capri Global Capital Limited and their respective shareholders and creditors ('the Scheme'). The Scheme became effective on 19th October, 2015 upon obtaining all sanctions and approvals as required under the Scheme. The Appointed Date for the merger is 1st April 2015. As the Transferor Companies were wholly owned subsidiaries of the Company, no shares of the Company were issued and allotted pursuant to the Scheme.

Pursuant to the Scheme, the entire business including the assets, liabilities, duties & obligations of the Transferor Companies have become vested in the Company w.e.f. 1st April, 2015. Since the Scheme got the requisite approvals in the financial year ended 31st March, 2016, the impact of the amalgamation has been given in the current financial year itself.

In accordance with the provisions of the Scheme;

- ▣ The investments held by the Company in the Transferor Companies / Wholly Owned Subsidiaries were cancelled.
- ▣ The amalgamation is accounted under the Pooling of Interest Method as per Accounting Standard 14 - Accounting for Amalgamations as referred to in the Scheme of Amalgamation approved by the Hon'ble Bombay High Court.
- ▣ The value of investments of the Transferor Companies in the books of the Transferee Company was equivalent to the paid up value of the Transferor Companies, hence no goodwill or capital reserve was created on the said amalgamation.

The Company has recognised the impact of the said Scheme during the year as per the details below:
