

INDEPENDENT AUDITOR'S REPORT

To The Members of Capri Global Housing Finance Limited Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of Capri Global Housing Finance Limited ("the Company"), which comprise the Balance Sheet as at 31 March 2021, and the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Cash Flows and the Statement of Changes in Equity for the year then ended, and a summary of significant accounting policies and other explanatory information (the "financial statements"). .

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2021, and its profit, total comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the financial statements in accordance with the Standards on Auditing specified under section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the Auditor's Responsibility for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Emphasis of Matter

We draw your attention to Note 34 to the Statement, which describes the continuing uncertainty arising from the COVID-19 Pandemic of the Company's financial statements.

Our opinion is not modified in respect of this matter.

Deloitte Haskins & Sells LLP

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Key Audit Matter Description

As at March 31, 2021, loan assets aggregating to ₹ 1,12,206.53 lacs, constituting 75.91% of the Company's total assets and the related impairment provisions amounting to Rs. 1,449.79 lacs including macro-economic overlays on account of COVID. Since the loans and advances form a major portion of the Company's assets, and due to the significance of the judgments used in classifying loans and advances into various stages as stipulated in IND AS 109 and determining related impairment provision requirements, this is considered to be the area that had a greater focus of our overall audit of the Company and a key audit matter.

As part of our risk assessment, we determined that the allowance for ECL on loan assets (including undisbursed commitments) has a high degree of estimation uncertainty, with a potential range of reasonable outcomes for the financial statements.

Management estimates impairment provision using Expected Credit loss model for the loan exposure. Measurement of loan impairment involves application of significant judgement by the management. The most significant judgements are:

- Timely identification and classification of the impaired loans, and
- Determination of probability of defaults (PD) and estimation of loss given defaults (LGD) based on the value of collaterals and relevant factors

The estimation of Expected Credit Loss (ECL) on financial instruments involve significant judgements and estimates. Following are points with increased level of audit focus:

- Classification of assets to stage 1, 2, or 3 using criteria in accordance with Ind AS 109 which also include considering the impact RBI circulars including COVID-19 Regulatory package.
- Accounting interpretations, modelling assumptions and data used to build and run the models;
- Measurement of individual borrowers' provisions including Covid-19 impact assessment of multiple economic scenarios;
- Inputs and Judgements used in determination of management overlay at various asset stages considering the current uncertain economic environment with the range of possible effects unknown to the country arising out of the COVID 19 Pandemic and
- The disclosures made in financial statements for ECL especially in relation to judgements and estimates by the Management in determination of the ECL.

How the Key Audit Matter Was Addressed in the Audit

The audit procedures performed by us included the following:

We examined Board Policy approving methodologies for computation of ECL that address policies, procedures and controls for assessing and measuring credit risk on all lending exposures, commensurate with the size, complexity and risk profile specific to the Company. The parameters and assumptions used and their rationale and basis are clearly documented.

Additionally, we have confirmed that adjustments to the output of the ECL Model is consistent with the documented rationale and basis for such adjustments and that the amount of adjustment has been approved by the Audit Committee of the Board of Directors

Deloitte Haskins & Sells LLP

- Testing the design and effectiveness of internal controls over the:
 - completeness and accuracy of the Exposure at Default (“EAD”) and the classification thereof into stages consistent with the definitions applied in accordance with the policy approved by the Board of Directors including the appropriateness of the qualitative factors to be applied.
 - Accuracy of PD and LGD computed based on Company’s past history.
 - where relevant, we used Information System specialists to gain comfort on data integrity and completeness of the aging report based on which the Staging of the loans is done into Stage 1, 2 and 3
 - computation of the ECL including methodology used to determine macro-economic overlays and adjustments to the output of the ECL Model.
- Also, on a sample basis tested:
 - Accuracy of the Days past due computation and the staging thereon.
 - completeness and accuracy of information used in the estimation of the PD and LGD for the different stages depending on the nature of the portfolio.
 - Computation of the PD and LGD based on the underlying data.
 - for exposures determined to be individually impaired, we tested a sample of loans and advances and examined management’s estimate of LGD by comparing actual recoveries post the loan asset becoming credit impaired with estimates of LGD.
 - we tested computation of provision for expected credit loss by using PD and LGD ($EAD * PD * LGD$) to ensure the correctness of the Company’s working.
- We performed an overall assessment of the ECL provision levels at each stage and reasonableness of the management’s overlays on account of Covid-19 taking into consideration the Company’s portfolio, risk profile, credit risk management practices and the macroeconomic environment.
- We also assessed the disclosures made in relation to the ECL allowance to confirm compliance with the provisions of Ind AS 107.

Information Other than the Financial Statements and Auditor’s Report Thereon

- The Company’s Board of Directors is responsible for the other information. The other information comprises the information included in the Director’s report and Management Discussion and Analysis, but does not include the financial statements and our auditor’s report thereon. The Director’s report, Management Discussion and Analysis and Corporate Governance report is expected to be made available to us after the date of this auditor’s report.
- Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon
- In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.
- If based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

Deloitte Haskins & Sells LLP

- When we read the Director's report and Management Discussion and Analysis, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance as required under SA 720 'The Auditor's responsibilities Relating to Other Information.

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.

Deloitte Haskins & Sells LLP

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, the Statement of Cash Flows and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account.
 - d) In our opinion, the aforesaid financial statements comply with the Ind AS specified under Section 133 of the Act.
 - e) On the basis of the written representations received from the directors as on 31 March, 2021 taken on record by the Board of Directors, none of the directors is disqualified as on 31 March, 2021 from being appointed as a director in terms of Section 164(2) of the Act.

Deloitte Haskins & Sells LLP

- f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.
- g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended, in our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.
- h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
- The Company has disclosed the impact of pending litigations on its financial position in its financial statements;
 - The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses
 - There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.
2. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure B" a statement on the matters specified in paragraphs 3 and 4 of the Order.

Report on Internal Financial Controls Over Financial Reporting ANNEXURE "A" TO THE INDEPENDENT AUDITORS' REPORT

**(Referred to in paragraph 1(f) under 'Report on Other Legal and Regulatory Requirements'
section of our report of even date)**

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Act.

We have audited the internal financial controls over financial reporting of Capri Global Housing Finance Limited (the "Company") as at March 31, 2021 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditors' judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Deloitte Haskins & Sells LLP

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of the financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2021, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note.

ANNEXURE "B" TO THE INDEPENDENT AUDITORS' REPORT

(Referred to in paragraph 2 under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

- (i) (a) According to the information and explanations given to us, the Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.
 - (b) The fixed assets were physically verified during the year by the Management in accordance with a regular programme of verification which, in our opinion, provides for physical verification of all the fixed assets at reasonable intervals. According to the information and explanation given to us, no material discrepancies were noticed on such verification.
 - (c) According to the information and explanations given to us and the records examined by us, there are no immovable properties, included in property, plant and equipment of the Company and accordingly, the requirement under paragraph 3(i)(c) of the Order is not applicable.
- (ii) To the best of our knowledge and according to the information and explanations given to us, the Company does not have any inventory and hence reporting under clause 3(ii) of the Order is not applicable.
- (iii) To the best of our knowledge and according to the information and explanations given to us, the Company has not granted any loans, secured or unsecured, to companies, firms, limited liability partnerships or other parties covered in the register maintained under section 189 of the Act.
- (iv) The Company has not granted any loans, made investments or provided guarantees under the provisions of Sections 185 and 186 of the Act and hence reporting under clause 3(iv) of the Order is not applicable.
- (v) To the best of our knowledge and according to the information and explanations given to us, the Company has not accepted any public deposit during the year and no order in this respect has been passed by the Company Law Board or National Company Law Tribunal or the Reserve Bank of India or any Court or any other Tribunals.
- (vi) To the best our knowledge and according to the information and explanations given to us, the Central Government has not prescribed the maintenance of cost records under section 148(1) of the Act, in respect of the services rendered by the Company.
- (vii) To the best of our knowledge and according to the information and explanations given to us, in respect of statutory dues:
 - (a) The Company has generally been regular in depositing undisputed statutory dues, including Provident Fund, Employees' State Insurance, Income-tax, Goods and Service Tax and cess to the appropriate authorities.
 - (b) There were no undisputed amounts payable in respect of Provident Fund, Employees' State Insurance, Income-tax, Goods and Service Tax and cess as at 31st March 2021 for a period of more than six months from the date they became payable.

Deloitte Haskins & Sells LLP

(c) Details of dues of Income-tax as on 31st March 2021 on account of disputes are given below :-

Name of Statute	Nature of Dues	Forum where Dispute is Pending	Period to which the Amount Relates	Amount (Rs.)
Income Tax Act, 1961	Regular Assessment u/s 143(3) of the Act	Assessing officer	AY 2008-09	1,95,454
Income Tax Act, 1961	Interest u/s 220(2) of the Act	Assessing officer	AY 2010-11	16,875

There are no dues of Provident Fund, Employees' state insurance, and Goods and Service Tax as on 31st March 2021 on account of disputes.

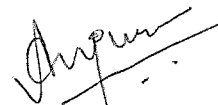

- (viii) To the best of our knowledge and according to the information and explanations given to us, the Company has not defaulted in the repayment of loans or borrowings to banks and government. The Company has not taken any loan from financial institutions. The Company has not issued any debentures.
- (ix) To the best of our knowledge and according to the information and explanations given to us, the money raised by way of the term loans have been applied by the Company during the year for the purposes for which they were raised other than temporary deployment pending application of proceeds. The Company has not raised moneys by way of initial public offer/ further public offer including debt instruments.
- (x) To the best of our knowledge and according to the information and explanation given to us, no fraud by the Company and no material fraud on the Company by its officers or employees has been noticed or reported during the year.
- (xi) In our opinion and according to the information and explanations given to us, the Company has paid/provided managerial remuneration in accordance with the requisite approvals mandated by the provisions of section 197 read with Schedule V to the Act.
- (xii) The Company is not a Nidhi Company and hence reporting under clause (xii) of the Order is not applicable.
- (xiii) To the best of our knowledge and according to the information and explanations given to us, the Company is in compliance with Section 188 and 177 of the Act, where applicable, for all transactions with the related parties and the details of related party transactions have been disclosed in the financial statements as required by the applicable accounting standards.
- (xiv) During the year the Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures and hence reporting under clause 3(xiv) of the Order is not applicable to the Company.
- (xv) To the best of our knowledge and according to the information and explanations given to us, during the year the Company has not entered into any non-cash transactions with its directors or persons connected with them and hence provisions of section 192 of the Act are not applicable.

Deloitte Haskins & Sells LLP

(xvi) The Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934.

CAPRI GLOBAL HOUSING FINANCE LIMITED
Statement of Cash Flow for the year ended March 31, 2021

(Amount in INR Millions)

Particulars	Year ended March 31, 2021	Year ended March 31, 2020
Operating activities		
Profit before tax from continuing operations	427.86	311.64
Adjustments to reconcile profit before tax to net cash flows:		
Depreciation & amortisation	19.83	23.11
Impairment on financial instruments	81.99	45.11
Net Gain on financial asset designated at FVPL	(109.55)	(10.22)
Share Based Payments to employees	4.60	-
Interest on Leased Assets	2.60	1.22
Loss On Sale Of Fixed Assets	0.06	0.15
Operating Profit before working capital changes	427.39	371.01
Working capital changes		
Loans	(2,556.24)	(1,055.37)
Trade receivables	(15.80)	41.28
Other Non-financial Assets	(8.73)	(0.04)
Trade payables	9.64	(3.19)
Other financial & Non Financial liability	390.10	(265.41)
Provisions	5.47	2.61
Cash flows used in operating activities	(1,748.16)	(909.11)
Income tax paid	(68.71)	(62.50)
Net cash flows used in operating activities	(1,816.86)	(971.61)
Investing activities		
Purchase of fixed and intangible assets	(5.68)	(5.15)
Proceeds from sale of property and equipment	0.09	(0.98)
Proceeds from sale of Investment Properties	2.15	2.15
(Increase)/Decrease in Fixed deposit not considered as cash and cash equivalent	(399.29)	41.59
Purchase of investment	(1,574.93)	(1,110.68)
Net cash flows used in investing activities	(1,977.66)	(1,073.06)
Financing activities		
Payments for the principal portion of the lease liability	(8.82)	(9.69)
Payments for the interest portion of the lease liability	(2.60)	(1.22)
Borrowings & debt securities issued	3,813.85	979.38
Net cash flows from financing activities	3,802.43	968.46
Net increase/ (decrease) in cash and cash equivalents	7.90	(1,076.21)
Cash and cash equivalents at the beginning of year	159.87	1,236.08
Cash and cash equivalents at the end of the year (refer Note 3)	167.77	159.87
1. Operational cash flows from interest and dividends		
Interest paid	788.66	668.20
Interest received	1,375.00	1,254.27
Dividend received	-	-

- Cash flows arising on account of taxes on income are not specifically bifurcated with respect to investing & financing activities.
- Previous Years figures have been regrouped, wherever necessary to confirm to current year's classification.
- Figures in brackets represent outflows.

Capri Global Housing Finance Limited
Notes forming part of Financial Statements

1. Corporate Information

Capri Global Housing Finance Limited (the Company) having principal place of business at Registered office, 502, Tower A, Peninsula Business Park, Senapati Bapat Marg, Lower Parel, Mumbai - 400013 is engaged in the business of providing loans primarily to customers for purchase / construction / repair and renovation of residential property. The Company holds registration certificate No. 07.0139.16 with National Housing Bank under section 29A of the National Housing Bank Act, 1987 dated 18th July 2016

The financial statements for the year ended March 31, 2021 were authorised for issue in accordance with a resolution of the board of directors on May 27, 2021.

2. Significant accounting policies

2.1 Basis of preparation

The financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time). The financial statements have been prepared under the historical cost convention, as modified by the application of fair value measurements required or allowed by relevant Accounting Standards. Accounting policies have been consistently applied to all periods presented, unless otherwise stated.

The preparation of financial statements requires the use of certain critical accounting estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses and the disclosed amount of contingent liabilities. Areas involving a higher degree of judgement or complexity, or areas where assumptions are significant to the Company are discussed in Note 2.15- Significant accounting judgements, estimates and assumptions.

The financial statements are presented in Indian Rupees (INR) and all values are rounded to the nearest Millions, except when otherwise indicated.

2.2. Presentation of financial statement

The financial statements of the Company are presented as per Schedule III (Division III) of the Companies Act, 2013, as notified by the Ministry of Corporate Affairs (MCA). Financial assets and financial liabilities are generally reported on a gross basis except when, there is an unconditional legally enforceable right to offset the recognised amounts without being contingent on a future event and the parties intend to settle on a net basis in the following circumstances:

- i. The normal course of business
- ii. The event of default
- iii. The event of insolvency or bankruptcy of the Company and/or its counterparties

2.3. Statement of compliance

The financial statements have been prepared in accordance with the Indian Accounting Standards (Ind AS) on the historical cost basis except for certain financial instruments that are measured at fair values

at the end of each reporting period as explained in the accounting policies below and the relevant provisions of the Act.

Accounting policies have been consistently applied except where a newly-issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

2.4 Financial instruments

(i) Classification of financial instruments

The Company classifies its financial assets into the following measurement categories:

1. Financial assets to be measured at amortised cost
2. Financial assets to be measured at fair value through other comprehensive income
3. Financial assets to be measured at fair value through profit or loss account

The classification depends on the contractual terms of the financial assets' cash flows and the Company's business model for managing financial assets which are explained below:

Business model assessment

The Company determines its business model at the level that best reflects how it manages groups of financial assets to achieve its business objective.

The Company's business model is not assessed on an instrument-by-instrument basis, but at a higher level of aggregated portfolios and is based on observable factors such as:

- ▶ How the performance of the business model and the financial assets held within that business model are evaluated and reported to the entity's key management personnel
- ▶ The risks that affect the performance of the business model (and the financial assets held within that business model) and the way those risks are managed
- ▶ How managers of the business are compensated (for example, whether the compensation is based on the fair value of the assets managed or on the contractual cash flows collected)
- ▶ The expected frequency, value and timing of sales are also important aspects of the Company's assessment. The business model assessment is based on reasonably expected scenarios without taking 'worst case' or 'stress case' scenarios into account. If cash flows after initial recognition are realised in a way that is different from the Company's original expectations, the Company does not change the classification of the remaining financial assets held in that business model but incorporates such information when assessing newly originated or newly purchased financial assets going forward.

The Solely Payments of Principal and Interest (SPPI) test

As a second step of its classification process the Company assesses the contractual terms of financial assets to identify whether they meet the SPPI test.

'Principal' for the purpose of this test is defined as the fair value of the financial asset at initial recognition and may change over the life of the financial asset (for example, if there are repayments of principal or amortisation of the premium/discount).

In making this assessment, the Company considers whether the contractual cash flows are consistent with a basic lending arrangement i.e. interest includes only consideration for the time value of money, credit risk, other basic lending risks and a profit margin that is consistent with a basic lending arrangement. Where the contractual terms introduce exposure to risk or volatility that are inconsistent

with a basic lending arrangement, the related financial asset is classified and measured at fair value through profit or loss

The Company classifies its financial liabilities at amortised costs unless it has designated liabilities at fair value through the profit and loss account or is required to measure liabilities at fair value through profit or loss such as derivative liabilities.

(ii) Financial assets measured at amortised cost

Debt instruments

These financial assets comprise bank balances, receivables, investments and other financial assets.

Debt instruments are measured at amortised cost where they have:

- a) contractual terms that give rise to cash flows on specified dates, that represent solely payments of principal and interest on the principal amount outstanding; and
- b) are held within a business model whose objective is achieved by holding to collect contractual cash flows.

These debt instruments are initially recognised at fair value plus directly attributable transaction costs and subsequently measured at amortised cost.

(iii) Financial assets measured at fair value through other comprehensive income (FVTOCI)

Debt instruments

Investments in debt instruments are measured at fair value through other comprehensive income where they have:

- a) contractual terms that give rise to cash flows on specified dates, that represent solely payments of principal and interest on the principal amount outstanding; and
- b) are held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets.

These debt instruments are initially recognised at fair value plus directly attributable transaction costs and subsequently measured at fair value. Gains and losses arising from changes in fair value are included in other comprehensive income within a separate component of equity. Impairment losses or reversals, interest revenue and foreign exchange gains and losses are recognised in Profit and Loss. Upon disposal, the cumulative gain or loss previously recognised in other comprehensive income is reclassified from equity to the statement of profit and loss.

Equity instruments

Investment in equity instruments that are neither held for trading nor contingent consideration recognised by the Company in a business combination to which Ind AS 103 'Business Combination' applies, are measured at fair value through other comprehensive income, where an irrevocable election has been made by management and when such instruments meet the definition of definition of Equity under Ind AS 32 *Financial Instruments: Presentation*. Such classification is determined on an instrument-by-instrument basis. As at reporting date, there are no equity instruments measured at FVTOCI.

Amounts presented in other comprehensive income are not subsequently transferred to profit or loss. Dividends on such investments are recognised in Profit or Loss.

(iv) Items at fair value through profit or loss (FVTPL)

Items at fair value through profit or loss comprise:

- Investments (including equity shares) held for trading;
- Items specifically designated as FVTPL on initial recognition; and
- debt instruments with contractual terms that do not represent solely payments of principal and interest.

Financial instruments held at FVTPL are initially recognised at fair value, with transaction costs recognised in the statement of profit and loss as incurred. Subsequently, they are measured at fair value and any gains or losses are recognised in the statement of profit and loss as they arise.

Financial instruments held for trading

A financial instrument is classified as held for trading if it is acquired or incurred principally for selling or repurchasing in the near term, or forms part of a portfolio of financial instruments that are managed together and for which there is evidence of short-term profit taking, or it is a derivative not in a qualifying hedge relationship.

Trading derivatives and trading securities are classified as held for trading and recognised at fair value.

No Trading derivatives were undertaken until the year ended March 31, 2021

Financial instruments designated as measured at FVTPL

Upon initial recognition, financial instruments may be designated FVTPL. A financial asset may only be designated at FVTPL if doing so eliminates or significantly reduces measurement or recognition inconsistencies (i.e. eliminates an accounting mismatch) that would otherwise arise from measuring financial assets or liabilities on a different basis.

A financial liability may be designated at FVTPL if it eliminates or significantly reduces an accounting mismatch or:

- if a host contract contains one or more embedded derivatives; or
- if financial assets and liabilities are both managed, and their performance evaluated on a fair value basis in accordance with a documented risk management or investment strategy.

Where a financial liability is designated at FVTPL, the movement in fair value attributable to changes in the Company's own credit quality is calculated by determining the changes in credit spreads above observable market interest rates and is presented separately in other comprehensive income. As at the reporting date, the Company has not designated any financial instruments as measured at fair value through profit or loss.

(v) Debt securities and other borrowed funds

After initial measurement, debt issued, and other borrowed funds are subsequently measured at amortised cost. Amortised cost is calculated by taking into account any discount or premium on issue funds, and costs that are an integral part of the EIR.

(vi) Reclassification

If the business model under which the Company holds financial assets changes, the financial assets affected are reclassified. The classification and measurement requirements related to the new category apply prospectively from the first day of the first reporting period following the change in business model that result in reclassifying the Company's financial assets. Changes in contractual cash flows are considered under the accounting policy on Modification and derecognition of financial assets described below.

(vii) Recognition and Derecognition of financial assets and liabilities

Recognition:

- a) Loans and Advances are initially recognised when the Financial Instruments are transferred to the customers.
- b) Investments are initially recognised on the settlement date.
- c) Debt securities, deposits and borrowings are initially recognised when funds reach the Company.
- d) Other Financial assets and liabilities are initially recognised on the trade date, i.e., the date that the Company becomes a party to the contractual provisions of the instrument. This includes regular way trades: purchases or sales of financial assets that require delivery of assets within the time frame generally established by regulation or convention in the market place.

Derecognition of financial assets due to substantial modification of terms and conditions:

The Company derecognises a financial asset, such as a loan to a customer, when the terms and conditions have been renegotiated to the extent that, substantially, it becomes a new loan, with the difference recognised as a derecognition gain or loss, to the extent that an impairment loss has not already been recorded. The newly recognised loans are classified as Stage 1 for ECL measurement purposes, unless the new loan is deemed to be Purchased or Originated as Credit Impaired (POCI).

If the modification does not result in cash flows that are substantially different, the modification does not result in derecognition. Based on the change in cash flows discounted at the original EIR, the Company records a modification gain or loss, to the extent that an impairment loss has not already been recorded.

Derecognition of financial assets other than due to substantial modification

a) Financial assets:

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognised when the rights to receive cash flows from the financial asset have expired. The Company also derecognises the financial asset if it has both transferred the financial asset and the transfer qualifies for derecognition.

The Company has transferred the financial asset if, the Company has transferred its contractual rights to receive cash flows from the financial asset

A transfer only qualifies for derecognition if either:

- i. The Company has transferred substantially all the risks and rewards of the asset, or
- ii. The Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset

The Company considers control to be transferred if and only if, the transferee has the practical ability to sell the asset in its entirety to an unrelated third party and is able to exercise that ability unilaterally and without imposing additional restrictions on the transfer.

When the Company has neither transferred nor retained substantially all the risks and rewards and has retained control of the asset, the asset continues to be recognised only to the extent of the Company's continuing involvement, in which case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

b) Financial liabilities

A financial liability is derecognised when the obligation under the liability is discharged, cancelled or expires. Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability. The difference between the carrying value of the original financial liability and the consideration paid is recognised in Profit or Loss.

(viii) Impairment of financial assets

Overview of the ECL principles

The Company records allowance for expected credit losses for all loans, other debt financial assets not held at FVTPL, together with financial guarantee contracts, in this section all referred to as 'financial instruments. Equity instruments are not subject to impairment under Ind AS 109.

The ECL allowance is based on the credit losses expected to arise over the life of the asset (the lifetime expected credit loss), unless there has been no significant increase in credit risk since origination, in which case, the allowance is based on the 12 months' expected credit loss.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is the portion of Lifetime ECL that represent the ECLs that result from default events on a financial instrument that are possible within the 12 months after the reporting date.

Both Lifetime ECLs and 12-month ECLs are calculated on either an individual basis or a collective basis. The Company has established a policy to perform an assessment, at the end of each reporting period, of whether a financial instrument's credit risk has increased significantly since initial recognition, by considering the change in the risk of default occurring over the remaining life of the financial instrument. The Company does the assessment of significant increase in credit risk at a borrower level. If a borrower has various facilities having different past due status, then the highest days past due (DPD) is considered to be applicable for all the facilities of that borrower.

Based on the above, the Company categorises its loans into Stage 1, Stage 2 and Stage 3 as described below:

Stage 1

All exposures where there has not been a significant increase in credit risk since initial recognition or that has low credit risk at the reporting date and that are not credit impaired upon origination are classified under this stage. The Company classifies all standard advances and advances up to 0-29 days default under this category. Stage 1 loans also include facilities where the credit risk has improved, and the loan has been reclassified from Stage 2.

Stage 2

All exposures where there has been a significant increase in credit risk since initial recognition but are not credit impaired are classified under this stage. Financial assets past due for 30-89 days are classified under this stage. Stage 2 loans also include facilities where the credit risk has improved, and the loan has been reclassified from Stage 3.

Stage 3

All exposures assessed as credit impaired when one or more events that have a detrimental impact on the estimated future cash flows of that asset have occurred are classified in this stage. For exposures that have become credit impaired, a lifetime ECL is recognised and interest revenue is calculated by applying the effective interest rate to the amortised cost (net of provision) rather than the gross carrying amount. 90 days Past Due is considered as default for classifying a financial instrument as credit impaired. If an event (for eg. any natural calamity) warrants a provision higher than as mandated under ECL methodology, the Company may classify the financial asset in Stage 3 accordingly.

Credit-impaired financial assets:

At each reporting date, the company assesses whether financial assets carried at amortised cost and debt financial assets carried at FVTOCI are credit-impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit-impaired includes the following observable data:

- a) Significant financial difficulty of the borrower or issuer;
 - b) A breach of contract such as a default or past due event;
 - c) The restructuring of a loan or advance by the company on terms that the company would not consider otherwise;
 - d) It is becoming probable that the borrower will enter bankruptcy or other financial reorganisation;
- or
- e) The disappearance of an active market for a security because of financial difficulties.

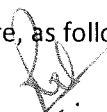

ECL on Debt instruments measured at fair value through OCI

The ECLs for debt instruments measured at FVTOCI do not reduce the carrying amount of these financial assets in the balance sheet, which remains at fair value. Instead, an amount equal to the allowance that would arise if the assets were measured at amortised cost is recognised in OCI as an accumulated impairment amount, with a corresponding charge to profit or loss. The accumulated loss recognised in OCI is recycled to the statement of Profit and Loss upon derecognition of the assets.

The mechanics of ECL:

The Company calculates ECLs based on probability-weighted scenarios to measure the expected cash shortfalls, discounted at an approximation to the EIR. A cash shortfall is the difference between the cash flows that are due to the Company in accordance with the contract and the cash flows that the Company expects to receive.

The mechanics of the ECL calculations are outlined below and the key elements are, as follows:

Probability of Default (PD) - The Probability of Default is an estimate of the likelihood of default over a given time horizon. A default may only happen at a certain time over the assessed period, if the facility has not been previously derecognised and is still in the portfolio.

Exposure at Default (EAD) - The Exposure at Default is an estimate of the exposure including interest accrued thereon at a future default date and also including the undrawn commitments.

Loss Given Default (LGD) - The Loss Given Default is an estimate of the loss arising in the case where a default occurs at a given time. It is based on the difference between the contractual cash flows due and those that the lender would expect to receive, including from the realisation of any collateral. It is usually expressed as a percentage of the EAD.

Forward looking information

While estimating the expected credit losses, the Company reviews macro-economic developments occurring in the economy and market it operates in. On a periodic basis, the Company analyses if there is any relationship between key economic trends like GDP, unemployment rates, benchmark rates set by the Reserve Bank of India, inflation etc. with the estimate of PD, LGD determined by the Company based on its internal data. While the internal estimates of PD, LGD rates by the Company may not be always reflective of such relationships, temporary overlays, if any, are embedded in the methodology to reflect such macro-economic trends reasonably.

Collateral Valuation

To mitigate its credit risks on financial assets, the Company seeks to use collateral, where possible. The collateral comes in various forms, such as the underlying asset financed, cash, securities, letters of credit/guarantees, etc. However, the fair value of collateral affects the calculation of ECLs. To the extent possible, the Company uses active market data for valuing financial assets held as collateral. Other financial assets which do not have readily determinable market values are valued using models.

Collateral repossessed

In its normal course of business, the Company does not physically repossess properties or other assets in its retail portfolio, but engages its employees to recover funds, to settle outstanding debt. Any surplus funds are returned to the customers/obligors. As a result of this practice, assets under legal repossession processes are not recorded on the balance sheet.

(ix) Write-offs

The Company reduces the gross carrying amount of a financial asset when the Company has no reasonable expectations of recovering a financial asset in its entirety or a portion thereof. This is generally the case when the Company determines that the borrower does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subjected to write-offs. Any subsequent recoveries against such loans are credited to the Statement of Profit and Loss.

(x) Determination of fair value

On initial recognition, all the financial instruments are measured at fair value. For subsequent measurement, the Company measures certain categories of financial instruments (as explained in note. at fair value on each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- i. In the principal market for the asset or liability, or
- ii. In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

In order to show how fair values have been derived, financial instruments are classified based on a hierarchy of valuation techniques, as summarised below:

Level 1 financial instruments - Those where the inputs used in the valuation are unadjusted quoted prices from active markets for identical assets or liabilities that the Company has access to at the measurement date. The Company considers markets as active only if there are sufficient trading activities with regards to the volume and liquidity of the identical assets or liabilities and when there are binding and exercisable price quotes available on the balance sheet date.

Level 2 financial instruments - Those where the inputs that are used for valuation and are significant, are derived from directly or indirectly observable market data available over the entire period of the instrument's life. Such inputs include quoted prices for similar assets or liabilities in active markets, quoted prices for identical instruments in inactive markets and observable inputs other than quoted prices such as interest rates and yield curves, implied volatilities, and credit spreads. In addition, adjustments may be required for the condition or location of the asset or the extent to which it relates to items that are comparable to the valued instrument. However, if such adjustments are based on unobservable inputs which are significant to the entire measurement, the Company will classify the instruments as Level 3.

Level 3 financial instruments - Those that include one or more unobservable input that is significant to the measurement as whole.

The Company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

Difference between transaction price and fair value at initial recognition

The best evidence of the fair value of a financial instrument at initial recognition is the transaction price (i.e. the fair value of the consideration given or received) unless the fair value of that instrument is evidenced by comparison with other observable current market transactions in the same instrument (i.e. without modification or repackaging) or based on a valuation technique whose variables include only data from observable markets. When such evidence exists, the Company recognises the difference between the transaction price and the fair value in profit or loss on initial recognition (i.e. on day one).

When the transaction price of the instrument differs from the fair value at origination and the fair value is based on a valuation technique using only inputs observable in market transactions, the Company recognises the difference between the transaction price and fair value in net gain on fair value changes. In those cases where fair value is based on models for which some of the inputs are not observable, the difference between the transaction price and the fair value is not recognised at the initial recognition stage.

2.5 Revenue from operations

(i) Interest Income

Interest income is recognised by applying (EIR) to the gross carrying amount of financial assets other than credit-impaired assets and financial assets classified as measured at FVTPL, taking into account the amount outstanding and the applicable interest rate. Interest income is recognised on non-performing assets at net of ECL.

The EIR is computed

- a. As the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial asset to the gross carrying amount of a financial asset
- b. By considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) in estimating the cash flows
- c. Including all fees paid or received between parties to the contract that are an integral part of the effective interest rate, transaction costs, and all other premiums or discounts.

Any subsequent changes in the estimation of the future cash flows is recognised in interest income with the corresponding adjustment to the carrying amount of the assets.

(ii) Dividend Income

Dividend income is recognised when the right to receive the payment is established.

(iii) Fees & Commission Income

Fees and commissions are recognised when the Company satisfies the performance obligation, at fair value of the consideration received or receivable.

(iv) Net gain on Fair value changes

Any differences between the fair values of financial assets classified as FVTPL held by the Company on the balance sheet date is recognised as an unrealised gain / loss. In cases there is a net gain in the aggregate, the same is recognised in "Net gains on fair value changes" under Revenue from operations and if there is a net loss the same is disclosed as "Net loss on fair value changes" under Expenses in the Statement of Profit and Loss.

Similarly, any realised gain or loss on sale of financial instruments measured at FVTPL and debt instruments measured at FVOCI is recognised in net gain / loss on fair value changes.

However, Net gain / loss on derecognition of financial instruments classified as amortised cost is presented separately under the respective head in the Statement of Profit and Loss.

(V) Loan Processing Fees

Loan processing fees on loans is collected towards processing of loan, this is amortised on EIR basis over the contractual life of the loan.

2.6 Expenses

(i) Finance costs

Finance costs on borrowings is paid towards availing of loan, is amortised on EIR basis over the contractual life of loan.

The EIR in case of a financial liability is computed

- a. As the rate that exactly discounts estimated future cash payments through the expected life of the financial liability to the gross carrying amount of the amortised cost of a financial liability.
- b. By considering all the contractual terms of the financial instrument in estimating the cash flows
- c. Including all fees paid between parties to the contract that are an integral part of the effective interest rate, transaction costs, and all other premiums or discounts.

Any subsequent changes in the estimation of the future cash flows is recognised in interest expense with the corresponding adjustment to the carrying amount of the liability.

Interest expense includes issue costs that are initially recognized as part of the carrying value of the financial liability and amortized over the expected life using the effective interest method. These include fees and commissions payable to advisers and other expenses such as external legal costs, Rating Fee etc, provided these are incremental costs that are directly related to the issue of a financial liability.

(ii) Retirement and other employee benefits

Short term employee benefit

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits. These benefits include short term compensated absences such as paid annual leave. The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees is recognised as an expense during the period. Benefits such as salaries and wages, etc. and the expected cost of the bonus/ex-gratia are recognised in the period in which the employee renders the related service.

Post-employment employee benefits

a) Defined contribution schemes

All the eligible employees of the Company who have opted to receive benefits under the Provident Fund and Employees State Insurance scheme, defined contribution plans in which both the employee and the Company contribute monthly at a stipulated rate. The Company has no liability for future benefits other than its annual contribution and recognises such contributions as an expense in the period in which employee renders the related service. If the contribution payable to the scheme for service received before the Balance Sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognised as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the Balance Sheet date, then excess is recognised as an asset to the extent that the pre-payment will lead to, for example, a reduction in future payment or a cash refund.

b) Defined Benefit schemes

The Company provides for the gratuity, a defined benefit retirement plan covering all employees. The plan provides for lump sum payments to employees upon death while in employment or on separation from employment after serving for the stipulated years mentioned under 'The Payment of Gratuity Act, 1972'. The present value of the obligation under such defined benefit plan is determined based on actuarial valuation, carried out by an independent actuary at each Balance Sheet date, using the Projected Unit Credit Method, which recognizes each period of service as giving rise to an additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation.

The obligation is measured at the present value of the estimated future cash flows. The discount rates used for determining the present value of the obligation under defined benefit plan are based on the market yields on Government Securities as at the Balance Sheet date.

Net interest recognized in profit or loss is calculated by applying the discount rate used to measure the defined benefit obligation to the net defined benefit liability or asset. The actual return on the plan assets above or below the discount rate is recognized as part of re-measurement of net defined liability or asset through other comprehensive income. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, attrition rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, these liabilities are highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

The Company fully contributes all ascertained liabilities to The Trustees – "Money Matters Securities Private Limited Employee Group Gratuity Assurance Scheme". Trustees administer contributions made to the trust and contributions are invested in a scheme of insurance with the IRDA approved Insurance Companies.

Re-measurement, comprising of actuarial gains and losses and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognized immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Re-measurements are not reclassified to profit and loss in subsequent periods.

Other long-term employee benefits

Company's liabilities towards compensated absences to employees are accrued on the basis of valuations, as at the Balance Sheet date, carried out by an independent actuary using Projected Unit Credit Method. Actuarial gains and losses comprise experience adjustments and the effects of changes in actuarial assumptions and are recognised immediately in the Statement of Profit and Loss.

The Company presents the Provision for compensated absences under provisions in the Balance Sheet.

(iii) Leases Rent

The Company leases most of its office facilities under operating lease agreements that are renewable on a periodic basis at the option of the lessor and the lessee. The lease agreements contain rent free periods and rent escalation clauses.

The Company assesses whether a contract contains a lease at the inception of the contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the company assesses whether: (i) the contract involves the use of an identified asset, (ii) the company has substantially all of the economic benefits from the use of the asset through the period of the lease, and (iii) the company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a ROU asset and a corresponding lease liability for all lease arrangements under which it is a lessee, except for short-term leases and low value leases. ROU assets represent the Company's right to use an underlying asset for the lease term and lease liabilities represent the Company's obligation to make lease payments arising from the lease. For short-term leases and low value leases, the Company recognizes the lease payments as an expense on a straight-line basis over the term of the lease.

The lease arrangements include options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities include these options when it is reasonably certain that they will be exercised.

The ROU assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

ROU assets are depreciated from the date of commencement of the lease on a straight-line basis over the shorter of the lease term and the useful life of the underlying asset.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. For leases under which the rate implicit in the lease is not readily determinable, the Company uses its incremental borrowing rate based on the information available at the date of commencement of the lease in determining the present value of lease payments. Lease liabilities are remeasured with a corresponding adjustment to the related ROU asset if the Company changes its assessment as to whether it will exercise an extension or a termination option.

(iv) Other income and expenses

The Company leases most of its office facilities under operating lease agreements that are renewable on a periodic basis at the option of the lessor and the lessee. The lease agreements contain rent free periods and rent escalation clauses.

The Company assesses whether a contract contains a lease at the inception of the contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the company assesses whether: (i) the contract involves the use of an identified asset, (ii) the company has substantially all of the economic benefits from the use of the asset through the period of the lease, and (iii) the company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a ROU asset and a corresponding lease liability for all lease arrangements under which it is a lessee, except for short-term leases and low value leases. ROU assets represent the Company's right to use an underlying asset for the lease term and lease liabilities represent the Company's obligation to make lease payments arising from the lease. For short-term leases and low value leases, the Company recognizes the lease payments as an expense on a straight-line basis over the term of the lease.

The lease arrangements include options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities include these options when it is reasonably certain that they will be exercised.

The ROU assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

ROU assets are depreciated from the date of commencement of the lease on a straight-line basis over the shorter of the lease term and the useful life of the underlying asset.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. For leases under which the rate implicit in the lease is not readily determinable, the Company uses its incremental borrowing rate based on the information available at the date of commencement of the lease in determining the present value of lease payments. Lease liabilities are remeasured with a corresponding adjustment to the related ROU asset if the Company changes its assessment as to whether it will exercise an extension or a termination option.

(iv) Other income and expenses

All Other income and expense are recognized in the period they occur.

(v) Impairment of non-financial assets

The carrying amount of assets is reviewed at each balance sheet date if there is any indication of impairment based on internal/external factors. An impairment loss is recognized wherever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the greater of the assets, net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and risks specific to the asset.

In determining net selling price, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used. After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life.

(vi) Taxes

Current Tax

Current tax assets and liabilities for the current and prior years are measured at the amount expected to be recovered from, or paid to, the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted, or substantively enacted, by the reporting date in the countries where the Company operates and generates taxable income.

Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred tax

Deferred tax assets and liabilities are recognised for temporary differences arising between the tax bases of assets and liabilities and their carrying amounts. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantively enacted by the reporting date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are only recognised for temporary differences, unused tax losses and unused tax credits if it is probable that future taxable amounts will arise to utilise those temporary differences and losses. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

Deferred tax assets and liabilities are offset where there is a legally enforceable right to offset current tax assets and liabilities and they relate to income taxes levied by the same tax authority on the same taxable entity.

Minimum Alternate Tax (MAT)

Minimum alternate tax (MAT) paid in a year is charged to the statement of profit and loss as current tax. The Company recognizes MAT credit available as an asset only to the extent that it is probable that the Company will pay normal income tax during the specified period, i.e., the period for which MAT credit is allowed to be carried forward. In the year in which the Company recognizes MAT credit as an asset in accordance with the Guidance Note on Accounting for Credit Available in respect of Minimum Alternative Tax under the Income-tax Act, 1961, the said asset is created by way of credit to the statement of profit and loss and shown as "MAT Credit Entitlement." The Company reviews the MAT Credit Entitlement asset at each reporting date and writes down the asset to the extent the Company does not have convincing evidence that it will pay normal tax during the specified period.

Goods and services tax /service tax/value added taxes paid on acquisition of assets or on incurring expenses

Expenses and assets are recognised net of the goods and services tax/service tax/value added taxes paid, except:

- i. When the tax incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case, the tax paid is recognised as part of the cost of acquisition of the asset or as part of the expense item, as applicable
- ii. When receivables and payables are stated with the amount of tax included

The net amount of tax recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the balance sheet.

2.7 Foreign currency translation

(i) Functional and presentational currency

The standalone financial statements are presented in Indian Rupees which is also functional currency of the Company and the currency of the primary economic environment in which the Company operates.

(ii) Transactions and balances

Initial recognition:

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Conversion:

Monetary assets and liabilities denominated in foreign currency, which are outstanding as at the year-end, are translated at the year-end at the closing exchange rate and the resultant exchange differences are recognised in the Statement of Profit and Loss.

Non-monetary items that are measured at historical cost in a foreign currency are translated using the spot exchange rates as at the date of recognition.

2.8 Cash and cash equivalents

Cash and cash equivalents comprise the net amount of short-term, highly liquid investments that are readily convertible to known amounts of cash (short-term deposits with an original maturity of three months or less) and are subject to an insignificant risk of change in value. They are held for the purposes of meeting short-term cash commitments (rather than for investment or other purposes).

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above.

2.9 Property, plant and equipment

Property, plant and equipment (PPE) are measured at cost less accumulated depreciation and accumulated impairment, (if any). The total cost of assets comprises its purchase price, freight, duties, taxes and any other incidental expenses directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by the management. Changes in the expected useful life are accounted for by changing the amortisation period or methodology, as appropriate, and treated as changes in accounting estimates.

Subsequent expenditure related to an item of tangible asset are added to its gross value only if it increases the future benefits of the existing asset, beyond its previously assessed standards of performance and cost can be measured reliably. Other repairs and maintenance costs are expensed off as and when incurred.

Depreciation

Depreciation is calculated using the written down value method to write down the cost of property and equipment to their residual values over their estimated useful lives which is in line with the estimated useful life as specified in Schedule II of the Act. The estimated useful lives are as prescribed by Schedule II of the Act. The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

Property plant and equipment is derecognised on disposal or when no future economic benefits are expected from its use. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is recognised in other income / expense in the statement of profit and loss in the year the asset is derecognised. The date of disposal of an item of property, plant and equipment is the date the recipient obtains control of that item in accordance with the requirements for determining when a performance obligation is satisfied in Ind AS 115.

2.10 Intangible assets

An intangible asset is recognised only when its cost can be measured reliably, and it is probable that the expected future economic benefits that are attributable to it will flow to the Company.

Intangible assets acquired separately are measured on initial recognition at cost. The cost of an intangible asset comprises its purchase price and any directly attributable expenditure on making the asset ready for its intended use and net of any trade discounts and rebates. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and any accumulated impairment losses.

The useful lives of intangible assets are assessed to be either finite or indefinite. Intangible assets with finite lives are amortised over the useful economic life. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at each financial year-end. Changes in the expected useful life, or the expected pattern of consumption of future economic benefits embodied in the asset, are accounted for by changing the amortisation period or methodology, as appropriate, which are then treated as changes in accounting estimates. The

amortisation expense on intangible assets with finite lives is presented as a separate line item in the statement of profit and loss. Amortisation on assets acquired/sold during the year is recognised on a pro-rata basis to the Statement of Profit and Loss from / upto the date of acquisition/sale.

Amortisation is calculated using the straight-line method to write down the cost of intangible assets to their residual values over their estimated useful lives. Intangible assets comprising of software are amortised on a straight-line basis over a period of 3 years, unless it has a shorter useful life.

Gains or losses from derecognition of intangible assets are measured as the difference between the net disposal proceeds and the carrying amount of the asset are recognised in the Statement of Profit and Loss when the asset is derecognised.

ROU assets are depreciated from the date of commencement of the lease on a straight-line basis over the shorter of the lease term and the useful life of the underlying asset.

2.11 Investment Property

Properties, held to earn rentals and/or capital appreciation are classified as investment property and measured and reported at cost, including transaction costs. For transition to Ind AS, the company has elected to adopt as deemed cost, the carrying value of investment property as per Indian GAAP less accumulated depreciation and cumulative impairment (if any) as on the transition date of April 1, 2017.

Depreciation is recognised using straight line method so as to write off the cost of the investment property less their residual values over their useful lives specified in Schedule II to the Act, or in case of assets where the useful life was determined by technical evaluation, over the useful life so determined. Depreciation method is reviewed at each financial year end to reflect the expected pattern of consumption of the future benefits embodied in the investment property. The estimated useful life and residual values are also reviewed at each financial year end and the effect of any change in the estimates of useful life/residual value is accounted on prospective basis.

An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from the disposal. Any gain or loss arising on derecognition of property is recognised in the Statement of Profit and Loss in the same period.

2.12 Provisions

Provisions are recognised when the enterprise has a present obligation (legal or constructive) as a result of past events, and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

When the effect of the time value of money is material, the enterprise determines the level of provision by discounting the expected cash flows at a pre-tax rate reflecting the current rates specific

to the liability. The expense relating to any provision is presented in the Statement of Profit and Loss net of any reimbursement.

2.13 Contingent Liabilities

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Company does not recognize a contingent liability but discloses its existence in the financial statements.

2.14 Earning Per Share

The Company reports basic and diluted earnings per share in accordance with Ind AS 33 on Earnings per share. Basic EPS is calculated by dividing the net profit or loss for the year attributable to equity shareholders (after deducting preference dividend and attributable taxes) by the weighted average number of equity shares outstanding during the year.

For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares. Dilutive potential equity shares are deemed converted as of the beginning of the period, unless they have been issued at a later date. In computing the dilutive earnings per share, only potential equity shares that are dilutive and that either reduces the earnings per share or increases loss per share are included.

2.15. Significant accounting judgements, estimates and assumptions

The preparation of financial statements in conformity with the Ind AS requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the accompanying disclosure and the disclosure of contingent liabilities, at the end of the reporting period. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised, and future periods are affected. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods.

In particular, information about significant areas of estimation, uncertainty and critical judgments in applying accounting policies that have the most significant effect on the amounts recognized in the financial statements is included in the following notes:

(i) Defined employee benefit assets and liabilities

The cost of the defined benefit gratuity plan and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate; future salary increases and mortality rates. Due to the complexities involved in the

valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

(ii) Impairment of loans portfolio

The measurement of impairment losses across all categories of financial assets requires judgement, in particular, the estimation of the amount and timing of future cash flows and collateral values when determining impairment losses and the assessment of a significant increase in credit risk. These estimates are driven by a number of factors, changes in which can result in different levels of allowances.

It has been the Company's policy to regularly review its models in the context of actual loss experience and adjust as and when necessary.

(iii) Effective Interest Rate (EIR) method

The Company's EIR methodology, recognises interest income / expense using a rate of return that represents the best estimate of a constant rate of return over the expected behavioural life of loans given / taken and recognises the effect of potentially different interest rates at various stages and other characteristics of the product life cycle (including prepayments and penalty interest and charges).

This estimation, by nature, requires an element of judgement regarding the expected behaviour and life-cycle of the instruments, as well expected changes to Company's base rate and other fee income/expense that are integral parts of the instrument

(iv) Lease accounting

The Company determines the lease term as the non-cancellable period of a lease including any option to extend or terminate the lease, if the use of such option is reasonably certain. The Company makes an assessment on the expected lease term on a lease-by-lease basis and thereby assesses whether it is reasonably certain that any options to extend or terminate the contract will be exercised. In evaluating the lease term, the Company considers factors such as any significant leasehold improvements undertaken over the lease term, costs relating to the termination of the lease and the importance of the underlying asset to operations, taking into account the location of the underlying asset and the availability of suitable alternatives. The lease term in future periods is reassessed to ensure that the lease term reflects the current economic circumstances.

The Company has applied an incremental borrowing rate for the purpose of computing lease liabilities based on the rate prevailing in respective geographies.

2.16 Operating Cycle

Based on the nature of products/activities of the company and the normal time between acquisition of assets and their realisation in cash or cash equivalents, the company has determined its operating cycle as 12 months.

Note-3 CASH AND CASH EQUIVALENTS

(Amount in INR Millions)

Particulars	As at March 31, 2021	As at March 31, 2020
(i) Cash on hand	5.53	0.71
(ii) Balances with banks:		
- In Current Accounts	162.24	159.16
- In Deposit accounts with original maturity of 3 months or less	-	-
Total	167.77	159.87

Note-4 BANK BALANCES OTHER THAN CASH AND CASH EQUIVALENTS

(Amount in INR Millions)

Particulars	As at March 31, 2021	As at March 31, 2020
In other Deposit accounts		
- original Maturity more than 3 months (Refer note below)	435.69	36.41
Total	435.69	36.41

Out of above Rs. 185.67 Mio balance in deposit accounts with banks are being earmarked towards Borrowing from national Housing Bank Deposits are made for varying period from 7 days to 10 years and earn interest at the respective fixed rates

Note-5 TRADE RECEIVABLES

(Amount in INR Millions)

Particulars	As at March 31, 2021	As at March 31, 2020
Unsecured, Considered good		
-Outstanding for a period exceeding six months from the due date of payment	-	-
-Outstanding for a period less than six months	14.99	-
Total	14.99	-

Trade receivables are non-interest bearing and are generally on terms of 30 to 90 days. The Company has assessed that, the impact of impairment of trade receivables is immaterial and hence no impairment loss has been provided.

No trade or other receivable are due from directors or other officers of the company either severally or jointly with any other person. Nor any trade or other receivable are due from firms or private companies respectively in which any director is a partner, a director or a member.

Note-6 LOANS

Capri Global Capital Limited (Holding Company)	6,07,14,280	100.00	6,07,14,280	100.00

Terms/Rights attached to equity shares:

- The Company has only one class of equity share having a face value of Rs. 10/- per share. Each holder of equity shares is entitled to one vote per share.
- During the year ended 31 March 2021, the amount of dividend recognized as distributions to equity shareholders was Rs.NIL (31 March 2020 Rs.NIL)
- In the event of liquidation of the company, the holders of equity shares will be entitled to receive remaining assets of the Company, after distribution of all preferential amounts. The distribution will be proportion to the number of equity shares held by the shareholders.

Objective for managing capital:

The Company maintains an actively managed capital base to cover risks inherent in the business and is meeting the capital adequacy requirements of the local regulator, Reserve Bank of India (RBI). The adequacy of the Company's capital is monitored using, among other measures, the regulations issued by RBI.

Securities Premium

Securities premium reserve is used to record the premium on issue of shares. The reserve can be utilised only for limited purposes such as issuance of bonus shares in accordance with the provisions of the Companies Act, 2013.

Statutory Reserve pursuant to Section 29C of the National Housing Bank Act, 1987

Every housing finance institution which is a company shall create a reserve fund and transfer therein a sum not less than twenty per cent of its profit every year as disclosed in the profit and loss account and before any dividend is declared. Explanation.—A housing finance institution creating and maintaining any special reserve in terms of clause (viii) of sub-section (1) of section 36 of the Income-tax Act, 1961 (43 of 1961) may take into account any sum transferred by it for the year to such special reserve for the purposes of this sub-section. For the previous comparative periods, company has maintained transfer to statutory reserve on profit calculated under erstwhile GAAP.

51% - 70%	35.44	8.30
71%-90%	129.70	35.13

Note 34 The outbreak of COVID-19 pandemic across the globe and in India has contributed to a significant volatility in the global and Indian financial markets and slowdown in the economic activities.

To cover additional challenges posed by COVID-19 pandemic, the management of the Company, based on current available information, has estimated overlays for the purpose of determination of the provision for impairment of financial assets carried at amortised cost. Based on the current indicators of future economic conditions, the Company considers these provisions to be adequate. Given the uncertainty over the potential macro-economic impact, the management has considered internal and external information up to the date of approval of these financial results.

The extent, to which the COVID-19 pandemic, including the current "second wave" that has significantly increased the number of cases in India, will continue to impact future results of the Company, will depend on the current as well as future developments, which are highly uncertain, including, among other things, any new information concerning the severity of the COVID-19 pandemic and any action to contain its spread or mitigate its impact whether government-mandated or elected by the Company. Given the uncertainty over the potential macro-economic condition, the impact of the global health pandemic may be different from that estimated as at the date of approval of these financial results and the Company will continue to closely monitor any material changes to future economic conditions, which will be given effect to in the respective future period.

Classification of assets and liabilities under the maturity buckets is based on the same estimates and assumptions as used by the Company for compiling the return submitted to the RBI. The Above is based on the information available with the company which has been relied upon by the auditor

Capital Management

The primary objectives of the Company's capital management policy are to ensure that the Company complies with externally imposed capital requirements and maintains strong credit ratings and healthy capital ratios in order to support its business and to maximise shareholder value. The Company manages its capital structure and makes adjustments to it according to changes in economic conditions and the risk characteristics of its activities. Capital Management Policy, objectives and processes are under constant review by the Board. For details of Capital to Risk Assets Ratio (CRAR) refer Note no. 54.1

Note 39- Fair value measurements

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market conditions, regardless of whether that price is directly observable or estimated using a valuation technique.

IndAS 107, 'Financial Instrument - Disclosure' requires classification of the valuation method of financial instruments measured at fair value in the balance Sheet, using a three level fair-value-hierarchy (which reflects the significance of inputs used in the measurements). The hierarchy gives the highest priority to un-adjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair-value-hierarchy under Ind AS 107 are described below:

39.1 Financial instruments by category

(Amount in INR Millions)

Particulars	As at March 31, 2021		As at March 31, 2020

39.2 Fair value hierarchy

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are (a) recognised and measured at fair value and (b) measured at amortised cost and for which fair values are disclosed in the financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial instruments into the three levels prescribed under the accounting standard. An explanation of each level follows underneath the table.

(Amount in INR Millions)

Financial assets and liabilities measured at fair value - recurring fair value measurements	Notes	Carrying Amount	Fair Value			Total

Total financial liabilities		7,814.59	-	-	7,814.59	7,814.59

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments, traded bonds and mutual funds that have quoted price. The fair value of all equity instruments (including bonds) which are traded in the stock exchanges is valued using the closing price as at the reporting period. The mutual funds are valued using the closing NAV.

Level 2: The fair value of financial instruments that are not traded in an active market (for example, traded bonds, over-the-counter derivatives) is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities, contingent consideration and indemnification asset included in level 3.

The carrying amounts of trade receivables, trade payables, capital creditors and cash and cash equivalents are considered to be the same as their fair values, due to their short-term nature.

The company gives loan at floating rate with terms including the fixed interest rate for initial period. The fair value of these loans approximates the Carrying amount.

For financial assets and liabilities that are measured at fair value, the carrying amounts are equal to the fair values.

The Company's borrowings are at floating rates therefore fair value of these borrowings approximates the carrying value.

The fair value of Debentures approximates the carrying value.

Note 40 RISK MANAGEMENT

40.1. Risk Disclosures

Company's risk is managed through an integrated risk management framework, including ongoing identification, measurement and monitoring, subject to risk limits and other controls. This process of risk management is critical to the Company's continuing profitability and each individual within the Company is accountable for the risk exposures relating to his or her responsibilities. The Company is exposed to credit risk, liquidity risk and interest rate risk.

It is the Company's policy to ensure that a robust risk awareness is embedded in its organisational risk culture.

40.2. Credit risk

Credit risk is the risk that the Company will incur a loss because its customers or counterparties fail to discharge their contractual obligations. The Company manages and controls credit risk by setting limits on the amount of risk it is willing to accept for individual counterparties.

40.2.1 Impairment assessment

40.2.1.1 Exposure at Default

EAD is taken as the gross exposure under a facility upon default of an obligor. The amortized principal and the advances have been bifurcated into following three stages:

Stage 1 – Advances with low credit risk and where there is no significant increase in credit risk. Hence, the advances up to 0-29 days are classified as Stage 1

Stage 2 – Advances with significant increase in credit risk. Hence the advances up to 30 to 89 days are classified as Stage 2

Stage 3 – Advances that have defaulted / Credit impaired advances. Hence the advances with 90 days past due or Restructured Advances are classified as Stage 3

40.2.1.2 Significant increase in credit risk

The Company continuously monitors all assets subject to ECLs. In order to determine whether an instrument or a portfolio of instruments is subject to 12 months ECL or lifetime ECL, the Company assesses whether there has been a significant increase in credit risk since initial recognition. The Company considers an exposure to have significantly increased in credit risk if contractual payments are more than 30 days past due.

40.2.1.3 Definition of default and cure

The Company considers a financial instrument defaulted and therefore Stage 3 (credit impaired) for ECL calculations in all cases when the borrower becomes 90 days past due on its contractual payments.

As a part of a qualitative assessment of whether a customer is in default, the Company also considers a variety of instances that may indicate inability to pay. When such events occur, the Company carefully considers whether the event should result in treating the customer as defaulted and therefore assessed as Stage 3 for ECL calculations or whether Stage 2 is appropriate. Such events include:

- a) Significant financial difficulty of the borrower or issuer;
- b) A breach of contract such as a default or past due event;
- c) The restructuring of a loan or advance by the company on terms that the company would not consider otherwise; or
- d) It is becoming probable that the borrower will enter bankruptcy or other financial reorganisation

It is the Company's policy to consider a financial instrument as 'cured' and therefore re-classified out of Stage 3 when the borrower makes necessary payments & the borrower is not 90 days past due over such payments. The decision whether to classify an asset as Stage 2 or Stage 1 once cured depends on the updated credit grade, at the time of the cure, and whether this indicates there has been a significant increase in credit risk compared to initial recognition.

40.2.1.4 Probability of Default ("PD") estimation process

The Probability of Default is an estimate of the likelihood of default over a given time horizon. A default may only happen at a certain time over the assessed period, if the facility has not been previously derecognised and is still in the portfolio. Probability of Default is computed based on number of accounts that default during a year as a percentage of average number of accounts outstanding (refer note 34).

- a) The Company has applied 12 months PD to stage 1 advances
- b) The Lifetime PD is computed using basic exponentiation technique after considering the residual maturity of the respective loan.
- c) PD of 100% is considered for Stage 3 assets.

40.2.1.5 Loss Given Default ("LGD")

The Loss Given Default is an estimate of the loss arising in the case where a default occurs at a given time. It is based on the difference between the contractual cash flows due and those that would be expected to receive, including from realisation of any prime/collateral security. LGD is computed based discounted expected recoveries at an account level based on collateral valuation after applying appropriate hair cut and appropriate recovery time. Accordingly, an average LGD is derived at the portfolio level

40.2.2 Analysis of risk concentration - Refer Note 54.12.3

40.2.3 Collateral and other credit enhancements

The amount and type of collateral required depends on an assessment of the credit risk of the counterparty. Company has Guidelines are in place covering the acceptability and valuation of each type of collateral. The Company also adheres to the NHB guidelines in respect of maintenance of adequate Loan to Value Ratios.

The main types of collateral for home loans are mortgages over residential properties.

Management monitors the market value of collateral and requests additional collateral in accordance with the underlying agreement.

In case of defaults by customers, where the Company is unable to recover the dues, the Company through a legal process enforces the security and recover the dues.

40.2.4 In accordance with the instructions in the RBI circular dated April 07 2021 , all lending institutions shall refund / adjust 'interest on interest' to all borrowers, irrespective of whether moratorium had been fully or partially availed, or not availed. Pursuant to these instructions, the Indian Banks Association (IBA) in consultation with other industry participants / bodies published the methodology for calculation of the amount of such 'interest on interest'. Accordingly. the Company has estimated the said amount and made provision for refund/adjustment.

40.2.5 The outbreak of Covid-19 pandemic across the globe & India has contributed to a significant volatility and decline in the global and Indian financial markets and slowdown in the economic activities. Pursuant to the guidelines issued by RBI dated, March 27, 2020, April 17, 2020 and May 23, 2020 relating to COVID-19 Regulatory Package, the Company has granted moratorium on the payment of instalments falling due between March 01, 2020 and August 31, 2020 to the eligible borrowers. For the purpose of asset classification on all such accounts, the number of days past due as on March 31, 2021 excludes the moratorium period to the respective borrower, as per the policy.

40.2.6 Hon'able Supreme court vide order dated 23 March 2021, in the matter of Small Scale industrial Manufacturers Associations VS UOI & Ors. Has stated that interium relief granted vide an interim order dated 3 September 2020 stands vacated. Accordingly the company has classified non performing assets as per extant RBI guidelines

Note 40 RISK MANAGEMENT

40.1. Risk Disclosures

Company's risk is managed through an integrated risk management framework, including ongoing identification, measurement and monitoring, subject to risk limits and other controls. This process of risk management is critical to the Company's continuing profitability and each individual within the Company is accountable for the risk exposures relating to his or her responsibilities. The Company is exposed to credit risk, liquidity risk and interest rate risk.

It is the Company's policy to ensure that a robust risk awareness is embedded in its organisational risk culture.

40.2. Credit risk

Credit risk is the risk that the Company will incur a loss because its customers or counterparties fail to discharge their contractual obligations. The Company manages and controls credit risk by setting limits on the amount of risk it is willing to accept for individual counterparties.

40.2.1 Impairment assessment

40.2.1.1 Exposure at Default

EAD is taken as the gross exposure under a facility upon default of an obligor. The amortized principal and the advances have been bifurcated into following three stages:

Stage 1 – Advances with low credit risk and where there is no significant increase in credit risk. Hence, the advances up to 0-29 days are classified as Stage 1

Stage 2 – Advances with significant increase in credit risk. Hence the advances up to 30 to 89 days are classified as Stage 2

Stage 3 – Advances that have defaulted / Credit impaired advances. Hence the advances with 90 days past due or Restructured Advances are classified as Stage 3

40.2.1.2 Significant increase in credit risk

The Company continuously monitors all assets subject to ECLs. In order to determine whether an instrument or a portfolio of instruments is subject to 12 months ECL or lifetime ECL, the Company assesses whether there has been a significant increase in credit risk since initial recognition. The Company considers an exposure to have significantly increased in credit risk if contractual payments are more than 30 days past due.

40.2.1.3 Definition of default and cure

The Company considers a financial instrument defaulted and therefore Stage 3 (credit impaired) for ECL calculations in all cases when the borrower becomes 90 days past due on its contractual payments.

As a part of a qualitative assessment of whether a customer is in default, the Company also considers a variety of instances that may indicate inability to pay. When such events occur, the Company carefully considers whether the event should result in treating the customer as defaulted and therefore assessed as Stage 3 for ECL calculations or whether Stage 2 is appropriate. Such events include:

- a) Significant financial difficulty of the borrower or issuer;
- b) A breach of contract such as a default or past due event;
- c) The restructuring of a loan or advance by the company on terms that the company would not consider otherwise; or
- d) It is becoming probable that the borrower will enter bankruptcy or other financial reorganisation

It is the Company's policy to consider a financial instrument as 'cured' and therefore re-classified out of Stage 3 when the borrower makes necessary payments & the borrower is not 90 days past due over such payments. The decision whether to classify an asset as Stage 2 or Stage 1 once cured depends on the updated credit grade, at the time of the cure, and whether this indicates there has been a significant increase in credit risk compared to initial recognition.

40.2.1.4 Probability of Default ("PD") estimation process

The Probability of Default is an estimate of the likelihood of default over a given time horizon. A default may only happen at a certain time over the assessed period, if the facility has not been previously derecognised and is still in the portfolio. Probability of Default is computed based on number of accounts that default during a year as a percentage of average number of accounts outstanding (refer note 34).

- a) The Company has applied 12 months PD to stage 1 advances
- b) The Lifetime PD is computed using basic exponentiation technique after considering the residual maturity of the respective loan.
- c) PD of 100% is considered for Stage 3 assets.

40.2.1.5 Loss Given Default ("LGD")

The Loss Given Default is an estimate of the loss arising in the case where a default occurs at a given time. It is based on the difference between the contractual cash flows due and those that would be expected to receive, including from realisation of any prime/collateral security. LGD is computed based discounted expected recoveries at an account level based on collateral valuation after applying appropriate hair cut and appropriate recovery time. Accordingly, an average LGD is derived at the portfolio level

40.2.2 Analysis of risk concentration - Refer Note 54.12.3

40.2.3 Collateral and other credit enhancements

The amount and type of collateral required depends on an assessment of the credit risk of the counterparty. Company has Guidelines are in place covering the acceptability and valuation of each type of collateral. The Company also adheres to the NHB guidelines in respect of maintenance of adequate Loan to Value Ratios.

The main types of collateral for home loans are mortgages over residential properties.

Management monitors the market value of collateral and requests additional collateral in accordance with the underlying agreement.

In case of defaults by customers, where the Company is unable to recover the dues, the Company through a legal process enforces the security and recover the dues.

40.3. Liquidity risk and funding management

Liquidity risk is defined as the risk that the Company will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset. Liquidity risk arises because of the possibility that the Company might be unable to meet its payment obligations when they fall due as a result of mismatches in the timing of the cash flows under both normal and stress circumstances. Such scenarios could occur when funding needed for illiquid asset positions is not available to the Company on acceptable terms. To limit this risk, management has arranged for diversified funding sources and adopted a policy of managing assets by monitoring future cash flows and liquidity on a daily basis.

Liquidity risk is managed in accordance with our Asset Liability Management Policy. This policy is framed as per the current regulatory guidelines and is approved by the Board of Directors. The Asset Liability Management Policy is reviewed periodically to incorporate changes as required by regulatory stipulation or to realign the policy with changes in the economic landscape. The Asset Liability Committee (ALCO) of the Company formulates and reviews strategies and provides guidance for management of liquidity risk within the framework laid out in the Asset Liability Management Policy.

Analysis of financial assets and liabilities by remaining contractual maturities is provided in Note no. 55.6

40.4 Interest rate risk

Interest rate risk arises from the possibility that changes in interest rates will affect future cash flows or the fair values of financial instruments.

The core business of the company is providing housing loans. The company borrows through various financial instruments to finance its core lending activity. These activities expose the company to interest rate risk.

Interest rate risk is measured through earnings at risk from an earnings perspective and through duration of equity from an economic value perspective. Further, exposure to fluctuations in interest rates is also measured by way of gap analysis, providing a static view of the maturity and re-pricing characteristic of Balance sheet positions. An interest rate sensitivity gap report is prepared by classifying all rate sensitive assets and rate sensitive liabilities into various time period categories according to contracted/behavioural maturities or anticipated re-pricing date. The difference in the amount of rate sensitive assets and rate sensitive liabilities maturing or being re-priced in any time period category, gives an indication of the extent of exposure to the risk of potential changes in the margins on new or re-priced assets and liabilities. The interest rate risk is monitored through above measures on a quarterly basis.

The following table demonstrates the sensitivity to a reasonably possible change in interest rates (all other variables being considered as constant) of the Company's statement of profit and loss and equity.

Currency of borrowing	Increase / (decrease) in basis points	Sensitivity of profit or loss	Sensitivity of equity
	2020-21	2020-21	2020-21
Borrowings (INR)	25 Basis point Up	(28.51)	(21.33)
	50 Basis point Up	(57.01)	(43.60)
	25 Basis point Down	28.51	21.80
	50 Basis point Down	57.01	43.60
Loans (INR)	25 Basis point Up	28.85	21.59
	50 Basis point Up	57.70	43.18
	25 Basis point Down	(28.85)	(21.59)
	50 Basis point Down	(57.70)	(43.18)
	2019-20	2019-20	2019-20
Borrowings (INR)	25 Basis point Up	(19.47)	(13.80)
	50 Basis point Up	(38.95)	(27.61)
	25 Basis point Down	19.47	13.80
	50 Basis point Down	38.95	27.61
Loans (INR)	25 Basis point Up	22.23	15.76
	50 Basis point Up	44.46	31.51
	25 Basis point Down	(22.23)	(15.76)
	50 Basis point Down	(44.46)	(31.51)

Operational Risk

Operational risk is the risk of loss arising from systems failure, human error, fraud or external events. When controls fail to operate effectively, operational risks can cause damage to reputation, have legal or regulatory implications, or lead to financial loss. The Company cannot expect to eliminate all operational risks, but it endeavors to manage these risks through a control framework and by monitoring and responding to potential risks. Controls include maker-checker controls, effective segregation of duties, access, authorisation and reconciliation procedures, staff education and assessment processes, such as the use of internal audit.

During the year, the the Company has not come across any instances of fraud.

Capital Management :

Company's capital management objective is primarily to safeguard business continuity. The Company's capital raising policy is aligned to macro economic situation and incidental risk factors. The Company's cashflows are regularly monitored in sync with annual operating plans and long-term and other strategic investment plans. The operational funding requirements are met through debt and operating cash flows generated. The company believes this approach would create shareholder value in long run. Also, the company has adopted a conservative approach for ALM management with primacy to adequate liquidity. At present a large portion of the company's resource base is equity. Therefore the company enjoys a low gearing.

The Company maintains its capital structure in line with economic conditions and the risk characteristics of its activities and the board reviews the capital position on a regular basis.

Gearing ratio :

Particulars	As at March 31, 2021	As at March 31, 2020
The gearing ratio at each date were as follows :		
*Debt (I)	11,571.16	7,750.74
Cash and bank balances (II) (refer note 3)	167.77	159.87
Net debt (I - II)	11,403.39	7,590.87
Total equity	2,650.07	2,315.32
Net debt to equity ratio	4.30	3.28

* Debt includes debt securities, borrowings and lease liabilities.

Note 41A- Defined Contribution Plan

The Company's state governed provident fund scheme are defined contribution plan for its employees. The Contribution by the employer and employee together with interest accumulated there on are payable to the employee at the time of separation from company or retirement whichever is earlier. The benefit vests immediately on rendering of services by the employee.

(Amount in INR Millions)		
Particulars	As at March 31, 2021	As at March 31, 2020
Employer's contribution to provident fund	2.82	2.65
Employer's contribution to National Pension Scheme	0.16	0.17
Total	2.98	2.82

Note 41B- Defined Benefit Plan

The Company has a defined benefit gratuity plan in India (funded). The Company's defined benefit gratuity plan is a final salary plan for its employees, which requires contributions to be made to a separately administered fund. The gratuity plan is governed by the Payment of Gratuity Act, 1972. Under the act, employee who has completed five years of service is entitled to specific benefit. The level of benefits provided depends on the member's length of service and salary at separation/retirement. The fund has the form of a trust and it is governed by the Board of Trustees, which consists of an equal number of employer and employee representatives. The Board of Trustees is responsible for the administration of the plan assets and for the definition of the investment strategy.

The following table sets out the status of the Defined Benefit Gratuity Plan as per the actuarial valuation by the independent Actuary appointed by the Company:-

Principal assumptions used for the actuarial valuations are as follows:

(Amount in INR Millions)		
Particulars	Gratuity Plans	
	As at March 31, 2021	As at March 31, 2020
Discount Rate	5.58%	6.24%
Expected Rate of return on Plan Asset	5.58%	6.24%
Salary Escalation	5.00%	5.00%
Attrition Rate	20.00%	16.10%
Mortality Table	Indian Assured Lives Mortality (2006-08) Ultimate	Indian Assured Lives Mortality (2006-08) Ultimate

Movements in the present value of the defined benefit obligation are as follows:

(Amount in INR Millions)		
Particulars	Gratuity Plans	
	As at March 31, 2021	As at March 31, 2020

Interest Cost	0.34	0.25
(Interest Income)	(0.22)	(0.10)
Net Interest Cost for Current Period	0.13	0.15

Amounts recognised in the statement of profit and loss in respect of these defined benefit plans are as follows:

(Amount in INR Millions)

Particulars	Gratuity Plans	
	As at March 31, 2021	As at March 31, 2020
Service cost:		
Current service cost	2.23	2.03
Expected Contributions by the employees	-	-
Past Service Cost (Amortised) Recognised	-	-
Past Service Cost (Vested Benefit) Recognised	-	-
Net interest expense	0.13	0.15
Expense Recognized	2.36	2.18

Amounts recognised in the Other Comprehensive Income (OCI) in respect of these defined benefit plans are as follows:

(Amount in INR Millions)

Particulars	Gratuity Plans	
	As at March 31, 2021	As at March 31, 2020
Return on plan assets (excluding amounts included in net interest expense)	(0.09)	(0.09)
Actuarial (gains) / losses on defined benefit obligations	(0.28)	(0.05)
Change in asset ceiling	-	-
Net (Income)/Expense For the Period Recognized in OCI	(0.37)	(0.14)

The fair value of the plan assets for the India at the end of the year 31st March 2021 for each category, are as follows:

(Amount in INR Millions)

Category of Assets	Gratuity Fund	
	As at March 31, 2021	As at March 31, 2020
Central Govt. Securities	-	-
State Govt. Securities	-	-
Debt Securities, Money Market Securities and Bank Deposits	-	-
Mutual Funds	-	-
Insurer Managed Funds	5.69	3.46
Others	-	-
Total	5.69	3.46

Maturity Analysis of benefit payments

(Amount in INR Millions)

Projected Benefits Payable in Future Years From the Date of Reporting	As at March 31, 2021	As at March 31, 2020
1st Following Year	0.53	0.28
2nd Following Year	0.73	0.34
3rd Following Year	1.24	0.48
4th Following Year	1.27	0.82
5th Following Year	1.08	0.83
Sum of Years 6 To 10	3.30	2.90
Sum of Years 11 and above	2.17	2.95

The estimates of future salary growth, factored in actuarial valuation, take account of inflation, seniority, promotion and other relevant factors such as supply and demand in the employment market. Such estimates are very long term and are not based on limited past experience / immediate future. Empirical evidence also suggests that in very long term, consistent high salary growth rates are not possible. The said estimates and assumptions have been relied upon by the auditors.

Sensitivity analysis

(Amount in INR Millions)

Particulars	As at March 31, 2021	As at March 31, 2020	As at March 31, 2021	As at March 31, 2020
Sensitivity Level	1% increase	1% increase	1% decrease	1% decrease
Impact on defined benefit obligation (in ₹)				
1) Discount Rate	(0.35)	(0.32)	0.38	0.36
2) Future Salary Increases	0.38	0.36	(0.35)	(0.33)
3) Employee Turnover	(0.11)	(0.10)	0.12	0.10

Note :

-The sensitivity analysis have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant.

-The sensitivity analysis presented above may not be representative of the actual change in the projected benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated.

-Furthermore, in presenting the above sensitivity analysis, the present value of the projected benefit obligation has been calculated using the projected unit credit method at the end of the reporting period, which is the same method as applied in calculating the projected benefit obligation as recognised in the balance sheet.

-There was no change in the methods and assumptions used in preparing the sensitivity analysis from prior years.

Note- 42 Employee Stock Option Plan

The Capri Global Capital Ltd (Holding Company) has granted 3,15,000 ESOPs to the employees of the Company. The ESOPs will be vested as per below mentioned schedule. A charge of Rs. 46,00,917/- is recognised in the statement of Profit & Loss during the year ended March 31, 2021 (Year ended March 31, 2020 Rs. 48,43,584/-).

Financial Year in which options will vest	ESOPs equivalent to number of equity shares of face value of Rs 10/- each
2023-24	94,500
2024-25	94,500
2025-26	126,000

Note -43 Segment Information (IND-AS 108)**Operating Segment**

The Company operates mainly in the business segment of fund based financing activity. All other activities revolve around the main business. Further, all activities are carried out within India. As such, there are no separate reportable segments as per the provisions of IND AS 108 on 'Operating Segments'.

Note 44- Related party disclosures**Compensation of key management personnel of the Company**

Key management personnel are those individuals who have the authority and responsibility for planning and exercising power to directly or indirectly control the activities of the Company and its employees. The Company includes the members of the Board of Directors which include independent directors (and its sub-committees) and Executive Committee to be key management personnel for the purposes of Ind AS 24 Related Party Disclosures.

INDEPENDENT AUDITOR'S REPORT

To The Members of Capri Global Resources Private Limited Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of Capri Global Resources Private Limited (the "Company"), which comprise the Balance Sheet as at 31st March 2021, and the Statement of Profit and Loss including Other Comprehensive Income, the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March 2021, and its loss, total comprehensive loss, its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the financial statements in accordance with the Standards on Auditing specified under section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the Auditor's Responsibility for the Audit of the financial statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Information Other than the Financial Statements and Auditor's Report Thereon

- The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Directors Report (the "Report"), but does not include the financial statements and our auditors' report thereon. The Report are expected to be made available to us after the date of this auditors' report.
- Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

Deloitte Haskins & Sells LLP

- In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.
- If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.

Deloitte Haskins & Sells LLP

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

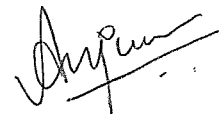

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit we report, to the extent applicable that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, the Cash Flow Statement and Statement of Changes in Equity dealt with by this Report are in agreement with the relevant books of account.
 - d) In our opinion, the aforesaid financial statements comply with the Ind AS specified under Section 133 of the Act.
 - e) On the basis of the written representations received from the directors and taken on record by the Board of Directors, none of the directors is disqualified as on 31st March 2021 from being appointed as a director in terms of Section 164(2) of the Act.
 - f) Reporting on the adequacy of Internal Financial Control Over Financial Reporting of the Company and the operating effectiveness of such controls, under section 143(3)(i) of the Act is not applicable in view of the exemption available to the Company in terms of the notification no. G.S.R. 583(E) dated 13th June 2017 issued by the Ministry of Corporate Affairs, Government of India, read with general circular No. 08/2017 dated 25th July 2017.

Deloitte Haskins & Sells LLP

- g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended, in our opinion and to the best of our information and according to the explanations given to us, the Company being a private company, section 197 of the Act related to the managerial remuneration not applicable.
- h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
- i. The Company does not have any pending litigations which would impact its financial position as at 31st March 2021
 - ii. The Company did not have any long-term contracts including derivative contracts as at year-end for which there were any material foreseeable losses.
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.
2. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order.

ANNEXURE "A" TO THE INDEPENDENT AUDITORS' REPORT

(Referred to in paragraph 2 under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

- (i) The Company does not have any fixed assets and hence reporting under clause (i) of the CARO 2016 is not applicable.
- (ii) To the best of our knowledge and according to the information and explanations given to us the Company does not have any inventory and hence reporting under clause 3(ii) of the Order is not applicable.
- (iii) To the best of our knowledge and according to the information and explanations given to us, the Company has not granted any loans, secured or unsecured, to companies, firms, Limited Liability Partnerships or other parties covered in the register maintained under section 189 of the Act.
- (iv) The Company has not granted any loans, made investments or provide guarantees under the provisions of Sections 185 and 186 of the Act and hence reporting under clause 3(iv) of the Order is not applicable.
- (v) To the best of our knowledge and according to the information and explanations given to us, the Company has not public accepted any deposit during the year and no order in this respect has been passed by the Company Law Board or National Company Law Tribunal or the Reserve Bank of India or any Court or any other Tribunals.
- (vi) To the best our knowledge and according to the information and explanations given to us, the Central Government has not prescribed the maintenance of cost records under section 148(1) of the Act, in respect of the services rendered by the Company.
- (vii) To the best of our knowledge and according to the information and explanations given to us, in respect of statutory dues:
 - (a) The Company has been regular in depositing Income tax and Goods and Service tax. No other statutory dues is applicable to the Company.
 - (b) There were no undisputed amounts payable in respect of Income-tax and Goods and Service tax as at 31st March 2021 for a period of more than six months from the date they became payable.
 - (c) There are no dues of Income-tax as and Goods and Service tax on 31st March, 2021 on account of disputes.
- (viii) The Company has not taken any loans or borrowings from financial institutions, banks and government or has not issued any debentures. Hence reporting under clause (viii) of the order is not applicable to the Company.
- (ix) The Company has not raised moneys by way of initial public offer or further public offer (including debt instruments) or term loans and hence reporting under clause (ix) of the Order is not applicable.
- (x) To the best of our knowledge and according to the information and explanations given to us, no fraud by the Company and no material fraud on the Company by its officers or employees has been noticed or reported during the year.
- (xi) The Company is a private company and hence the provisions of section 197 of the Act do not apply to the Company.

Deloitte Haskins & Sells LLP

- (xii) The Company is not a Nidhi Company and hence reporting under clause (xii) of the Order is not applicable.
- (xiii) The Company is a private company and hence the provisions of section 177 and section 188 of the Act are not applicable to the Company. In our opinion and according to the information and explanations given to us, the Company has disclosed the details of related party transactions in the financial statements as required by the applicable accounting standards.
- (xiv) During the year the Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures and hence reporting under clause 3(xiv) of the Order is not applicable to the Company.
- (xv) To the best of our knowledge and according to the information and explanations given to us, during the year the Company has not entered into any non-cash transactions with its directors or persons connected with them and hence provisions of section 192 of the Act are not applicable.
- (xvi) The Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934.

Capri Global Resources Private Limited

Notes forming part of standalone Financial Statements for the Year Ended March 31, 2021

1. Corporate Information

Capri Global Resources Private Limited (the Company) having principal place of business at Registered office, 502, Tower A, Peninsula Business Park, Senapati Bapat Marg, Lower Parel, Mumbai - 400013 is engaged in the business of Activities auxiliary to financial intermediation, having CIN: U67190MH2010PTC200848.

2. Significant Accounting Policies

2.1 Basis of preparation

The financial statements of the company have been prepared in accordance with the Indian Accounting standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time). The financial statements have been prepared under historical cost convention, as modified by the application of fair value measurements required or allowed by relevant Accounting Standards.

Effective April 1, 2018, the Company has adopted all the Ind AS and the adoption was carried out in accordance with Ind AS 101, First-time Adoption of Indian Accounting Standards, with April 1, 2017 as the transition date. The transition was carried out from Indian Accounting Principles generally accepted in India as prescribed under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014 (IGAAP), which was the previous GAAP. Accordingly all other disclosures are given wherever necessary.

The accounting policies have been consistently applied to all periods presented, unless otherwise stated.

2.2 Use of Estimates:

The preparation of financial statements requires the use of certain critical accounting estimates and assumptions that affect the reported amounts of assets, liabilities, revenues, expenses and disclosed amount of contingent liabilities.

2.3 Revenue Recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured.

2.4 Retirement and other employee benefits

Short term employee benefit

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits. These benefits include short term compensated absences such as paid annual leave. Benefits such as salaries and wages, etc. and the expected cost of the bonus/exgratia are recognised in the period in which the employee renders the related service.

Defined Benefit Schemes

The company provides for the gratuity, a defined retirement plan covering all employees. The plan provides for lump sum payments to employees upon death while in employment or on separation from employment after serving for the stipulated years mentioned under 'The Payment of Gratuity Act, 1972'.

2.5 Finance Costs

Finance costs comprise of interest on loan from parent company, the same is accrued on annual basis and payable at the time of repayment of loan

2.6 Other expenses

Other expenses are recognised on accrual basis in the period they occur.

2.7 Cash and Cash Equivalents

Cash and Cash Equivalents comprise the net amount of short-term, highly liquid investments that are readily convertible to known amounts of cash (short term deposits with an original maturity of three months or less) and are subject to an insignificant risk of change in value. They are held for the purpose of meeting short term cash commitments (rather than for investment or other purposes).

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above.

2.8 Earnings Per Share

The company reports basic and diluted earnings per share in accordance with Ind AS 33 on Earnings per share. Basic EPS is calculated by dividing the net profit or loss for the year attributable to equity shareholders (after deducting preference dividends and attributable taxes) by the weighted average number of equity shares outstanding during the year.

For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares. Dilutive potential equity shares are deemed converted as of the beginning of the period, unless they have been issued at later date. In computing the diluted earnings per share, only potential equity shares that are dilutive and that either reduces the earnings per share or increases loss per share are included.

2.9 Income Taxes

Current Tax

Current tax assets and liabilities for the current and prior years are measured at the amount expected to be recovered from, or paid to, the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted, or substantively enacted, by the reporting date in the countries where the Company operates and generates taxable income.

Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred tax

Deferred tax assets and liabilities are recognised for temporary differences arising between the tax bases of assets and liabilities and their carrying amounts. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantively enacted by the reporting date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are only recognised for temporary differences, unused tax losses and unused tax credits if it is probable that future taxable amounts will arise to utilise those temporary differences and losses. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

Deferred tax assets and liabilities are offset where there is a legally enforceable right to offset current tax assets and liabilities and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax

2.10 Provisions

A provision is recognized when the company has a present obligation as a result of past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are discounted to their present value and are determined based on the best estimate required to settle the obligation at the reporting date. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates.

Where the company expects some or all of a provision to be reimbursed, the reimbursement is recognized as a separate asset but only when the reimbursement is virtually certain. The expense relating to any provision is presented in the statement of profit and loss net of any reimbursement.

2.11 Operating Cycle

Based on the nature of products/activities of the company and the normal time between acquisition of assets and their realisation in cash or cash equivalents, the company has determined its operating cycle as 12 months for the purpose of classification of its assets and liabilities as current and non current.
